PARTY LINES WERE DRAWN ON MEASURE

In House to Decentralize The Taxation Power Of The State

WHICH IS BACKED BY PRESENT ADMINISTRATION.

REPEAL OF WARNES LAW

In Its Entirety Would Be Accomplished, and District Assessors' Duties Assumed By County Auditors—Republicans Expect to Pass It Over Any Opposition.

(Associated Press Telegram) Columbus, March 16.—A solid Republican majority was arrayed today against a protesting Democratic minority when the house reached final consideration of the Parrett-Whitmore measure decentralizing taxation, which was a special order of business for early this afternoon. Republican leaders said it would be passed without effectual opposition.

In the senate another important administration measure, the Moore civil service bill was up for final consideration, and its passage under fire of the Democrats was predicted by Republican senate leaders. The senate also planned to consider a special order of business, the Reichard bill, providing for abolition of four state supervisors of agricultural education; the Meyers bill, providing for creation of a state purchasing department; and another bill by the same author, providing for publication of only a digest of state reports instead of detailed reports from each department.

The Parrett-Whitmore taxation bill would repeal the entire Warnes act passed by the Democratic legislature two years ago. It would substitute for the present district tax assessors in each county appointed by the state tax commission, the county auditor, who would be made chief county assessor. Assessors would be elected in each ward and precinct and these would be subject to authority of the auditor. A board of revision of three members elected by county officials is provided for with power to revise assessments or take original action in placing property on the duplicate. The state tax commission is retained and given authority to supervise the entire election machinery of the state.

Unlimited evidence of activities of paid lobbyists in relation to members of the general assembly was promised today by Representative Deaton of Miami, he announced, as a result of his statement yesterday that a legislative investigation of lobbying forces is being considered.

"I was approached today by a man, neither a legislator nor a lobbyist," said Representative Deaton, "who promised he would furnish me with all the direct evidence necessary to show illegal and improper practices by paid agents of special interests and other members of the legislature also have urged this investigation. I am awaiting further developments before actually proposing formally such an inquiry."

Five lobbyists have registered with the secretary of state since Representative Deaton made his announcement yesterday.

Later today lobbyists for coal

PRUSSIA ALONE HAS LOST A MILLION MEN SINCE WAR BEGAN.

(Associated Press Telegram.) London, March 16.—The last eight official Prussian casualty lists, number 166 to 173, contain 33,142 names, bringing the grand total of killed, wounded and missing since the war began to 1,050,029 men, according to News from Copenhagen. The last four lists include the names of eleven airmen killed, four wounded and two taken prisoner.

It should be borne in mind that these totals refer to Prussia; they do not take into account 160 Bavarian, 136 Wurttemberg, 119 Saxon and 20 Navy lists.

GOVERNOR'S AUNT IS DEAD; MOTHER IS CRITICALLY ILL

(Associated Press Telegram) Delaware, O., March 16.—Mrs. Henrietta Willis, 84, aunt of Governor Frank B. Willis, died early today.

The condition of the governor's mother continues critical. Mrs. Henrietta Willis was the widow of Dr. P. A. Willis, brother of the father of the governor. Dr. P. A. Willis died in 1876.

THAW DENIED A RETURN TO NEW ENGLAND

JUSTICE PAGE'S DECISION WAS ANTICIPATED BY WRIT OF HABEAS CORPUS

Returnable Friday, Which Saves Him From Asylum—at least for the Present.

(Associated Press Telegram) New York, March 16.—Harry K. Thaw will not be sent back to New Hampshire by the state of New York, as his counsel demanded, but must be returned to Matteawan asylum, "unless legal papers calling for his detention in New York county are served upon the warden of Tombs prison." Such was Supreme Justice Page's decision today, in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as if in anticipation of just such a decision had obtained from Supreme Court Justice Bijur a writ of habeas corpus which will keep Thaw in Tombs prison until next Friday, when he must be produced in court. It was a close call for Thaw as plans had been considered by the state for returning him at once to his long-time residence in the hospital for the criminal insane. Asylum attendants were in the courtroom, ready to rush him there by automobile the moment the motion for a return to New Hampshire was denied. But the writ of habeas corpus which had been served half an hour before on Warden Hanley of Tombs, prevented this.

Sheriff Grifenhagen of New York county had heard whisperings of a plot to abduct Thaw during the brief interval when he should be out of Warden Hanley's custody in going and from the prison to the courtroom across the Bridge of Sighs. Accordingly, the sheriff armed twenty deputies with revolvers and scattered them throughout the crowd that packed the courtroom. Many more deputies were sprinkled among the crowds in the corridors.

"I am taking no chances," the

Motor Trucks Pick Up Dead Germans After Battle.

A scene in a French village after a vigorous encounter between French and Germans. The superior number of the French forced the Germans to retire in haste and leave their dead in the streets. French motor trucks are picking up the dead bodies of the fighters.

United States Will Make Demand for Indemnity for Sunken Ship and Cargo

(Associated Press Telegram) Washington, March 16.—The United States will make its formal representations to Germany on the sinking of the American ship, William P. Frye, by the cruiser, Prinz Eitel Friedrich, as soon as certain necessary facts regarding the destination of the Frye's cargo of wheat are obtained.

President Wilson said today that the informal conferences between state department officials and Count Bernstorff, the German ambassador, had served to pave the way for formal representations which will include a demand for an indemnity for the cargo and ship.

Judge Ansberry Testifies That He Wanted Grand Jury To Investigate Bank's Closing

(Associated Press Telegram) Columbus, March 16.—Timothy T. Ansberry, of Defiance, former congressman now court of appeals judge, told the Winans bank investigation committee today he wanted a grand jury investigation of the Putnam county bank of Ottawa for the sake of disclosing the connection of N. E. Matthews, president of the bank, and successful candidate against Ansberry for election to congress. Judge Ansberry said that by his recommendation for a grand jury inquiry, he did not mean to imply any wrong doing of the state banking department.

Henry Ballard, assistant attorney general and counsel for the legislative committee, informed Ansberry that he is in possession of copies of letters written by former superintendent of banks E. W. Lattanner, whose administration the committee is investigating, to Ansberry. These were given to the committee by Lattanner when he came to Columbus several weeks ago, Mr. Ballard said.

They were surrendered on the condition however that their contents be not disclosed.

Unless Lattanner be allowed to testify before the committee this gaining immunity from possible prosecution.

Both Matthews and C. H. Rice, vice president and general manager of the Putnam county bank closed by the banking department for liquidation, were in the committee room and heard Judge Ansberry's testimony concerning them. Ansberry repeated to the committee his belief that the closing of the bank had been used as a political capital by Matthews in his successful campaign for election against Ansberry. He offered to make a statement before the committee showing his reason for wishing a grand jury investigation which he said would "greatly concern" both Matthews and Rice.

Ballard tried to get Judge Ansberry

to testify concerning their contents, but Judge Ansberry refused to do this from memory. The committee finally went into executive session to discuss this with Ansberry. Ballard's remarks suggested the secret meeting would be devoted to deciding whether certain evidence should be given before the committee or should be reserved for the Putnam county grand jury.

Judge Ansberry explained to the committee that his trip to Mississippi to investigate securities of defunct banks being liquidated by the banking department was made at the solicitation of W. N. Shaffer, head of the liquidating bureau. He charged no fee, he said, and received only his expenses.

Frank G. Kahle, of Ottawa, cashier of the bank of Ottawa, testified that he had held a conference in Columbus with Supt. Lattanner and J. W. Smith, Ottawa attorney and member of the Democratic state central committee the day before the Putnam bank was closed. He said he had refused to take over the affairs of the Putnam county bank for liquidation without its being closed by the department, because he considered many assets of the Putnam county bank bad.

(Associated Press Telegram) Valparaiso, Chile, March 16.—

Nineteen members of the crew of the German cruiser Dresden, sunk off Juan Fernandez island on Sunday by British warships, are missing.

This was made known on the arrival here today of the British auxiliary cruiser Gramma, having on board the survivors from the Dresden, some of whom were wounded.

watchmen detailed to guard them.

Enough estimates placed their value at from \$200,000 to \$500,000. This rich prize, it is said, lay in the cathedral of Mexico City, presumably for centuries, till it slipped through Carranza's fingers in the flight from Mexico City of the priest who brought it to America. The name of this priest was withheld. It was learned, however, that the priest had said he hastily packed the jewels and robes in his suitcase when General Carranza called for a church

DANIELS IN ANSWER TO HIS CRITICS

SAYS UNITED STATES NAVY WAS NEVER AS PREPARED AS AT PRESENT

Powerful, Ready and Efficient in Opinion of Secretary, Given in Address.

(Associated Press Telegram) Newport News, Va., March 16.—Secretary Daniels, answering critics of the unpreparedness of the American navy for war declared in an address here today that never before in its history was the navy in better shape to fight. He spoke at a luncheon given in his honor following the launching of the new superdreadnought Pennsylvania.

"There never was a time," said Secretary Daniels, "when the navy was so powerful, so ready, so efficient as now. Nor has there been a year when the fleet has given so much time to target practice, maneuvers, war games and practices, as the present year. Skill, modern adaptation, new tactics, are being carried out day and night. The motto of the navy of today is 'training, training and more training; practice and more practice.' Nothing else keeps ships and men fit. Today they are fit and ready."

Secretary Daniels reviewed the progress of building battleships and said the launching of the Pennsylvania was one of many proofs of the strength, effective and steady development of the navy of 1915. He praised congress for providing recently for an increase in the navy, saying it showed its wisdom of the value of submarines when it authorized a big increase of that craft.

"No nation," he said, "has placed such substantial faith in the deadly power of this undersea craft. Within a comparatively short time, when our mighty fleets lie in Hampton roads, ready to traverse the ocean, it will be accompanied by submarines which can make 20 knots and send hurtling through the water torpedoes capable of sinking the Leviathan ships any nation can construct. The 63rd congress had the wisdom to see that the backbone of any naval fighting machine is the great ship able to keep the ocean when it is storm tossed."

Secretary Daniels said that the country was fortunate in that the mantle of patience and peace of the martyred Lincoln had fallen upon the shoulders of President Wilson to guide the ship of state in the present period of peril and stress. With such a pilot he said, the nation could look with confidence to the future.

CONDITIONS IMPROVE IN MEXICO CITY

President Wilson Regards Conditions There as In Less Ferment

NO DOUBT MURDERER WILL RECEIVE PUNISHMENT

AND FAMILY INDEMNIFIED

Official Assurances Are Received From Two Sources That Carranza Has Abandoned His Blockade of Progreso, "At Request of President Wilson"—Protests Bring Action.

(Associated Press Telegram) Washington, March 16.—Official assurances that General Carranza has abandoned his blockade of Progreso were received today from two sources.

American Consul Silliman at Vera Cruz, reported that Carranza "at the request of President Wilson, has recalled his order closing the port of Progreso."

Carranza's minister of foreign affairs telegraphed the Carranza agency here:

"I beg to advise you that from March 14 the port of Progreso will be open."

Conditions in Mexico generally are regarded by President Wilson as much less in a ferment than they were a few days ago. He told callers today that the American representations and notes had been effective and that he felt that there now was more security for foreigners.

The president said he had no doubt that Carranza's killing of John B. McManus, an American citizen, recently, would be punished. With punishment of the offenders and payment of indemnity to the family, the incident probably will be closed.

McELWAIN MAY RECOVER BULLET LODGED IN LUNG

John McElwain, of East Newark, who was taken to the City Hospital Monday afternoon with a revolver bullet in his chest, may recover from the wound, though physicians would not predict what the outcome would be. The examination made at the hospital yesterday indicated that the ball lodged in the left lung. McElwain passed a good night and was said by physicians to be in "good shape," Tuesday morning.

ROME REPORTS SAY OVER 20,000 WERE EARTHQUAKE VICTIMS.

(Associated Press Telegram.)

Rome, Via Paris, March 16.—An official parliamentary report on the earthquake of January 13, gives the number of deaths thus far reported as 29,978, without including persons who afterwards died of injuries and illness caused by the disaster. The communes damaged by the earthquake numbered 372.

25 KILLED ON BRITISH SHIP.

(Associated Press Telegram) Berlin, March 16.—(By wireless to Sayville, L. I.)—The Overseas News Agency today gave out what they described as a report from Athens to the effect that the British cruiser Amethyst sustained heavy damages and had 25 officers and men killed and an equal number wounded during an attack on the inner forts of the Dardanelles in which five British warships took part.

Railroad Must Run Branch Line, Even at a Loss, Is The Decision of Supreme Court

(Associated Press Telegram) Columbus, March 16.—Two decisions considered by state and railroad officials to be of wide importance to common carriers, were handed down here today by the supreme court. One practically orders that a railroad must continue service on a branch line even if it must be maintained at a loss, and the other holds that the state public utilities commission can order a carrier to maintain a specific kind of service on its lines.

The decision involving the operation of a branch line of a carrier at a loss was given in the case of the Hocking Valley railroad against the state public utilities commission. In May 1914, a number of Jackson county citizens filed a complaint with the utilities commission, alleging that the Hocking Valley intended discontinuing service on a branch line operating from Hamden Junction to Jackson. They asked that the company be required to continue service. The line was an electric road.

The company answered by asserting the electric service was a losing proposition and proposed to furnish a steam service. The commission ordered the electric service continued and the courts have upheld the ruling.

The other decision concerning carriers was given in the case of the Adena railroad company vs. the utilities commission. A shipper had filed complaint with the commission to compel the road to furnish passenger and freight service in less than carload shipments between the villages of Neff and Adena, Belmont county.

The commission ordered the railroad to run a train a day each way and also furnish adequate service. The courts have upheld this ruling. The railway in this case claimed the right to elect whether it would maintain freight or passenger service.

Clinton H. Cowen, the new state highway commissioner, formerly resided in Licking county. He attended college at Granville and was a member of the class of 1892 in Denison University.

AN ADVANCE IS CLAIMED BY AUSTRIA

In Carpathians After Sanguinary Assaults On The Mountain Tops

WHICH ARE STILL IN HANDS OF THE RUSSIANS.

HEAVY GUNS AT PREZMYSL

Are Being Used By Russians In Effort to Reduce the Fortress, While the Austrians Are Hammering Away to Relieve the Stronghold—British Comment On Recent Order.

(Associated Press Telegram) London, March 16.—The only military activity along the East Prussian front appears to be the resumption of the German bombardment of Osovetz. At this point, the attacking batteries have been brought closer to the fortress, the reason being, according to official reports from Petrograd, the ineffectiveness of shell fire at a longer range. The Russian reports maintain that the attacks on the fort have been successfully countered.

Petrograd claims that the Russians are holding their antagonists on almost the entire Przemysl front, where the Germans are keeping up a violent artillery fire.

In the Carpathians and in Galicia, it is the usual story of attack and counter attack, with Vienna claiming a slow advance after sanguinary assaults on mountain tops held by the Russians, while the Russians on the other hand maintain that they are more than holding their own in these regions. Weather conditions in the Carpathians, where the snow is deep, make the movement of troops difficult, men on skis being the only forces able to operate freely. The Russians are bombarding Przemysl with heavy batteries, while the Austrians are still hammering away in their efforts to relieve the fortress.

On the western front the Germans attack on Ste. Loix evidently was made to counteract the British success at Neuve Chapelle. Berlin contents itself with claiming that progress has been made in this region while Paris contends that the British have won most of their lost trenches there.

With the exception of a few newspapers which are inclined to the belief that a food blockade would be a better method of accomplishing the desired result, virtually the whole British press comments the order in council, setting forth the British retaliation measures against the submarine blockade of Germany. Many editorial writers express uneasiness as to the effect this order will have on neutrals and they advance a plea for forbearance on account of the extraordinary conditions which caused the promulgation of this retaliatory announcement.

Catholic Priest, In Shabby Clothes, Banished from Mexico City, Brought King's Ransom to U. S. In a Suitcase

(Associated Press Telegram) New York, March 16.—A king's ransom in jewels, blazoned in the Royal Eagles of Spain at the time of Charles V., the most powerful monarch of the sixteenth century, lies under guard at the customs house here, awaiting appraisal.

The gems, set in gold on white and purple robes, and mounted on two golden crowns, were brought in to New York by a Catholic priest, clad in shabby clothes, who fled from Mexico City a month ago, made his way to Vera Cruz and sailed aboard

Better Light Service at Less Cost, Says One; Lower Cost And Independence, Says Other

Several hundred men, members of the Brotherhood of the First M. E. church, and voters generally who were invited to attend, and all members of the city council, Monday night heard an interesting discussion of the city's street lighting problem in the lecture room of the church. It was in the nature of a debate arranged by the Brotherhood and other members of the city council. A number of new members were voted upon.

Mr. Beatty introduced Mr. Norpell as the first speaker. In opening his address, Mr. Norpell said: "Permit me to state at the outset that I do not pretend to be an expert accountant, or to know anything about electricity. There are so many ways of looking at this question and so much confusion, so many conflicting statements about the actual cost of producing electrical current depending upon the peculiar conditions surrounding each case that it is difficult for a layman to arrive at a satisfactory conclusion. For one to be able to discuss the question intelligently it would require

posed bond issue seriously and are willing to be informed upon the subject before election day.

H. M. Beatty, president of the Brotherhood presided at the meeting. A short business session preceded the debate. The members of the organization voting for a fish supper to be given some time in April. John Ditter was named chairman of the committee to have charge of the arrangements. A number of new members were voted upon.

Mr. Beatty introduced Mr. Norpell as the first speaker. In opening his address, Mr. Norpell said: "Permit me to state at the outset that I do not pretend to be an expert accountant, or to know anything about electricity. There are so many ways of looking at this question and so much confusion, so many conflicting statements about the actual cost of producing electrical current depending upon the peculiar conditions surrounding each case that it is difficult for a layman to arrive at a satisfactory conclusion. LIFE INSURANCE COMPANIES

They Are Closely Observing Public Health Condition

An examining physician for one of the prominent life insurance companies, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Binghamton, N. Y., who prepared Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, claim that judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and no testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases. Swamp-Root is purely an herbal compound and Dr. Kilmer & Co. advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Newark Daily Advocate.

BETTER

(Continued from Page 1.)

a lot of time, study and investigation, which I have not been able to give the subject.

"In order to vote intelligently it is necessary to hear both sides of the question. We do not meet as antagonists in this debate, but as brothers of one common family, as citizens of a common community all interested alike in the best solution of this much discussed question.

"I maintain that if the city can purchase current from the Ohio Light & Power company, or other corporation, as cheap or cheaper than we can produce it, there is absolutely no business sense in further increasing the city's bonded indebtedness.

"The city's bonded indebtedness, including unpaid city bonds, unpaid school bonds and floating debt of school board (estimated at \$60,000) is \$1,339,000. As resources, the city has a tax duplicate in round numbers of thirty millions. The city's levy is 5.45 which nets \$163,500. Receipts from the liquor tax amount to about \$31,000, a total of \$194,000.

"Of the 5.45 mills levied for the city, 2.65 mills is levied to retire bonds and pay interest on bonds. This amounts to \$79,500. This leaves the paltry sum of \$115,000 to maintain the city government, pay salaries, maintain the police and fire departments, etc.

"If we keep on issuing bonds, we soon will reach the point where it will take almost the entire city fund raised by taxation, to pay interest and retire bonds.

"The city's bond limit is a million and a half. If we continue to issue bonds we soon will have reached the limit. Then should an emergency arise requiring a bond issue, the city

would be powerless to meet the emergency.

"There are many things we need badly among them, repair of paving around the square, an adequate system of sewers, a filtration plant, a sewage and garbage plant, and any one of these we may be compelled by the state to put in at any time.

"A high tax rate, which follows a large debt, discourages the coming of people of means, manufacturing enterprises, and discourages those already here from enlarging their plants.

"I maintain that private companies can furnish better service with less cost than a plant owned by the city. The light company's new and modern plant can furnish the city better service than any \$30,000 plant the city can operate.

"The company stands ready and willing to furnish current to the city for less than \$8,000 per year and current for as many additional lamps as the city may need, at the same rate.

"A better contract might be made if council would select a citizen's committee to confer with the light company. By such a contract the city would know exactly what it is paying for light.

"The contract could run from one to 10 years and if it proved unsatisfactory, the city could erect and have ready for operation at the expiration of its contract, its own plant.

"Those who are friendly to the city plant, claim it can be built for \$30,000. They said the waterworks could be built for \$300,000. But it cost nearly twice that, or \$650,000.

"Assuming that it can be built for \$30,000 it can be operated for less than \$8,000. The estimate of the city's engineer is that it will cost nearly \$12,000, being \$4,000 more than the light company proposes to charge for current."

Mr. Norpell admitted he was opposed to municipal ownership on the ground that city plants can not be operated as cheaply and efficiently as privately owned plants; that the service director who is in charge hasn't a cent invested in it and therefore has no incentive to bring it to a high state of efficiency. He drew a comparison between privately owned and city owned plants to support his contention.

He paid a tribute to Service Director Christian by saying that "the city now has an honest, capable and efficient service director." "But," he said, "in November of this year, we have a municipal election. There may be a change made which would remove the director from his position."

"Columbus' municipal light plant, according to the report for 1913 produced current at a cost of 2.43 cents and in 1914 it cost 1.73 cents. This plant cost Columbus nearly a million dollars and yet they would have you believe that Newark, with a \$30,000 plant can produce current for less money.

In Columbus, private consumers pay 8 cents per kilowatt and pay for all electrical connections, carbon lamps and meters. In Newark the consumer pays cents with free carbon lamps; free wire connections and free meters. In addition it is receiving free current for the city buildings, the lights on the court house and the sign on the Trust building, which if paid for would cost about \$4,000 per year.

"Opposition to this contract is due largely to prejudice against corporations. They have been denounced as enemies of the public. They have been harassed by adverse legislation, loaded down with taxes.

"The Ohio Light & Power Company has constructed a plant costing \$500,000. It employs 123 men, pays out in wages from \$60,000 to \$100,000 per year, pay into the county treasury \$4,000 to \$5,000 per year taxes. It is a Newark institution and is entitled to consideration from Newark people.

E. T. Johnson was the first speaker for the negative. He stated that the time had arrived when the sincere Newark boosters should show their loyalty to their home town and not to a few individual pocketbooks.

"Our past experience does not indicate that municipal ownership has been a failure or that it has been unprofitable. The present plant in 21 years cost in construction and operation \$277,821.02. If we paid \$65, and \$60 per light during this period, and the difference in cost paid into a sinking fund, the city plant would have showed a profit for the 21 years of \$120,279.39. This amount represents the saving to the city in 21 years.

"This is a Newark product, not Wall Street. And we have the light

plant left too. Call it junk if you like, but when you leave here tonight you'll find that old pile of junk still on the job, lighting the streets.

"Of 29 Ohio cities, ranking in population from 50,000 to 9,900, the largest and Mt. Vernon the smallest, all of which have been buying their current from corporations, latest reports show that the cost per capita for street lighting was 91 1-2 cents. The cost per capita in Newark was 22 cents. Consider that 91 1-2 cents and remember that under a contract such as is proposed, Newark may expect just such an experience.

"Utility corporations are sending to all parts of the country free of charge, such magazines as 'Concerning Public Ownership,' 'The American City,' and 'Public Utilities,' with a view of influencing citizens against municipal ownership. One publisher admitted having mailed 200,000 copies of his magazine.

"Following the announcement of this debate and the speakers who participated, I received a letter from the Ohio Light & Power company, ordering me to cancel a \$5,000 insurance policy issued by a company I represent. I am interested to know what Newark agent issued that \$5,000 policy.

"Now what is offered by the light company in its contract. It offers the city current for 1.1 cents and asks the city to surrender its plant. Any one of us knows that an idle plant will rapidly deteriorate and in a short time will be unfit for use. The plant will be completely eliminated as a competitor of the light company. York, Pa., had a similar experience and after the city was deprived of its means of competition, the rate charged the city was increased 190 percent, with the alternative of going without the service.

"When the price of 1.1 cents was made by the Ohio Light and Power company that price did not include the switchboard tender and the third crew at the water plant, which must come whether the new plant is built or not, nor the insurance on the old plant. The total expenses under the contract plan will amount to nearly \$12,000 making the actual cost of current 1.53 instead of 1.1 cents.

"Engineers estimate five pounds of coal to the k. w. hour to be at least one pound too high. But in their zeal to arrive at a maximum cost of production, the coal cost was intentionally placed too high. Proof of this is found in Port Clinton and Kalamazoo where plants used less than 3 1-2 pounds of coal per k. w. Many cities are manufacturing current at a half cent per k. w. and Newark should do as well.

"The real joker in the proposed contract, is the fact that the line loss is lost sight of. This is due to faulty insulation of wires, and the contact of wires with trees and foliage. In damp weather this is indicated by sparks and even flames in the trees which we all have seen.

"This is estimated by electrical engineers to be 25 per cent and this will amount to approximately \$2,500 per year under the contract. And only about one-third that amount under municipal ownership because the cost of additional fuel is the only item of expense in generating this wasted current.

"The Ohio Light and Power company is discriminating against the small consumer in Newark. It is charging less per k. w. hour to its consumers in Mt. Vernon and Lancaster than it is charging to the same consumers in Newark. Yet the central plant is located in Newark, where the rate should be lower. In other words, the small Newark consumer is paying the line loss which follows the transportation of current such a distance, when such loss should be paid by Mt. Vernon and Lancaster.

"Mr. Christian says he believes the current can be manufactured for 3-4 cent per k. w. He is a Newark product. He is a man who is safe and his advice to maintain our own plant should be heeded. More than 1,500 towns in the United States are maintaining their own plants and doing it profitably. There should be some satisfaction in our right to do as we please without the possibility of being tied up in the courts with another case similar to the gas case."

Just before Mr. Evans was introduced, members of the city council came in, the meeting having been adjourned to permit the members to hear the debate.

Mr. Evans said in part: "This question is one of vital importance, which should be considered with no bitterness of feeling. Newark men who are to vote upon the question, should realize their responsibility. It's a business proposition. Deciding this question will prove the acid test as to the future growth and prosperity of the city.

"If a business man attempted to run his business as the average municipal plant is handled, he soon would be driven to bankruptcy. The trouble seems to be that the great mass of the voters do not use their best judgment and are prone to follow a leader, whether that leader be right or wrong.

"In the past ten years, the use of electricity in Ohio has increased 50 per cent. The Ohio Light and Power company has done much to develop electricity in Ohio and it has but started. Before its operations have been completed it will have spent millions where it has now spent thousands. Cheap current is advantageous to industry. The local plant is managed by efficient men and the city should be proud of it.

"This plant since the improvement

Lime Starvation Causes Tuberculosis

The Medical Record (New York) of December 18, 1900, contains an article on "The Treatment of Pulmonary Tuberculosis Based on the Assumption That the Dietetic Cause of the Disease is Lime Starvation," by Dr. J. M. Russell, who says: "The condition which is recognized as preceding the active development of tuberculosis in the adult may be considered as due to lime starvation."

"Among inorganic substances lime salts appear to be of special physiological importance. The cells of the body are not in organic combination. It is difficult to suppose that the cells can appropriate them for food."

"Years of widespread use confirm us in the belief that the success of Beckman's Alternative in cases of pulmonary tuberculosis (consumption) and chronic throat and bronchial troubles is due in large measure to its content of lime, so combined with other ingredients as to be easily appropriated by the cells.

"Doubtless this has had much to do with the results obtained in many cases of these affections, which appear to have yielded to Beckman's Alternative. As it contains no opiates, narcotics or habit-forming drugs, it is safe to try. Your druggist will order it for you or you can send direct to Beckman Laboratory, Philadelphia.

were started has spent \$15,000 worth. Newark merchants and business men for materials and supplies. The company is a heavy tax payer. It is a part of the city and county and should be regarded as such. By comparison with 50 other cities, the rate offered is reasonable and the city knows exactly what its street lighting is going to cost. We don't know now. The meters are out of order, the plant is out of order, and it is in debt \$25,000 and the taxpayers have to pay the interest.

"The idea of a municipal plant sounds good but it won't work. No city is successful when it enters into commercial life. All are better off without municipal plants and the tax rate is less. Utilities service from private corporation is better and it costs less.

"Failures in any business come from trying to do too many things. The successful business specializes, gives good service and gets the business.

"Instead of attacking corporations they should be fostered. About 85 per cent of the men and women of the state get their wages from corporations. The great business heads of the country have been developed by corporations. The sooner we get rid of the idea that corporations are monsters, the community will be better off.

"The Columbus municipal plant cost \$875,000 and produces 3,321,000 kilowatts at a cost of 1 3-4 cents. With our smaller plant we could not hope to produce current at less than 2 cents. The manager of the American Bottle Company says that its electrical equipment costs more than the proposed city plant, that it operates 24 hours per day, using more current than the city. Yet it believes that it is cheaper to buy current than to make it, though the company pays the regular utility rate and not the special rate made to the city.

J. A. Flory closed the argument for the negative. He stated he was not opposed to corporations. That he was interested in many of them and that his firm represented more corporations than any firm of lawyers in the city.

"This is not a question merely of dollars and cents," said Mr. Flory. "With the issue of bonds and the construction of the plant, it will cost the tax payers 10 cents per year on each thousand dollars valuation and at the end of the ten years the city will be the free and independent owner of its light plant."

"In the four years, 1910, '11, '12 and '13 the average cost per light for Newark was \$23.57. This does not represent the cost of the lights with new and modern machinery, placed at the waterworks station where the operation cost would be reduced to a minimum.

"The city can buy machinery as good and as cheaply as the light company. The operation of the plant will not cost more for coal. Enough can be saved on the estimate for fuel to pay for the plant in 10 years."

"Newark had this experience before the present plant was built. Before we were able to get the municipal plant it was found necessary to renovate the council. But we got the plant and the city saved enough money since that time to pay for several plants. We had a contract with the water company once but the courts were full of suits and when suits were brought against the water company, the bond holders came in and said they were not responsible for the contract and they were not either. The gas company says it doesn't own any gas and you are paying its fees to lawyers to protect your rights, enough to run the plant a whole year.

"There should be something in the peace and welfare of the community which comes from being independent and free from possibility of controversy."

Mr. Norpell in his rebuttal, took exceptions to the strong terms used by Mr. Flory. He declared he could find no justification for such a tirade against the corporation. He said that the light company had come to Newark and erected a half million dollar plant and paid out more money than Mr. Flory would if he lived a thousand years. "Listen to that kind of talk," said Mr. Norpell, "and you will have a town as dead as a cemetery."

"The hard times which we are experiencing just now are not due to the European war, but the war on business. Legislatures and congress are continually restricting corporations and business. As a result investments are unprofitable and the depression follows. A few years ago, the B. & O. at this point was employing 2,600 men. Today the company employs 600 and on half time at that. Originally the company paid out \$175,000 where today it is paying less than \$100,000."

Skiddoo. He—"How old are you?" She—"I've just turned 23." He—"Oh, I see"—32.—Boston Transcript.

RAILWAY RATE BILL HEARING AT COLUMBUS

Columbus, O., March 16.—Business men and men representing labor or interests from Lima, Cleveland, Toledo, Dayton, Zanesville, Marietta, and other points in the state, have signified their intention of being present at the public hearing in behalf of the Thatcher 2 1/2-cent passenger fare bill, which will be held in the hall of the house of representatives this evening. Indications point to it being the most important open session of the legislature to date. Many of these are large employers of traveling salesmen, who say they are ready and willing to pay the added cost of their men on the road. They believe the proposed measure a distinct step towards general prosperity.

The principal arguments from the railroad standpoint will be presented by W. H. Fisher, general passenger agent of the Hocking Valley, and W. B. Calloway, general passenger agent of the C., H. & D. and the B. & O. S.W.

Victims of Rheumatism

T. J. Evans' No-Cure No-Pay Offer Attracts Many Sufferers to Test Rheuma.

If Rheuma, the wonderful prescription for rheumatism sold by T. J. Evans and all druggists, does not cure any purchaser, the druggist will return your money without any red tape.

Rheumatism is a dangerous disease because of its shifting nature it often strikes the heart and proves fatal. Any one with even a taint of rheumatism ought to drive it out as soon as possible.

Rheumatism is caused by sluggish, worn-out or over-worked kidneys, which become clogged and fail to eliminate the impurities from the system.

Rheuma acts promptly and directly upon the kidneys; it cleanses them; it absolutely renovates and leaves them in perfect condition, able to do the work nature intended they should do. 50 cents a bottle.

THAW

(Continued from Page 1.)

sheriff said, "I am well healed for an abduction."

Thaw entered the courtroom smiling and confident. He glanced over the crowd for a familiar face, apparently seeking his mother, his sister and his half brother, Josiah Thaw, but they were not present.

When the decision was announced Thaw's smile changed to a frown. Plainly he was disappointed. He turned quickly to John B. Stanchfield of his counsel, spoke a few words in an undertone and took his seat. A moment later, two of the sheriff's deputies led him away to the Tombs.

Justice Page took occasion to comment, in his decision, on the good faith displayed by the state of New York towards New Hampshire by placing Thaw on trial on the conspiracy charge. There had been no evidence, the court held, to warrant the charge that Thaw had been brought back simply to be sent again to Matteawan. Nor had there been adduced any adequate reason why Thaw should be sent back to New Hampshire, after his trial and acquittal.

Thaw was to go back to Matteawan, Judge Page decided, upon the old commitment of Justice Dowling. The next step in the litigation to keep Thaw out of Matteawan will be taken Friday before Justice Bijur, upon return of the writ of habeas corpus. It is expected an effort will be made then to have the question as to Thaw's sanity decided by a jury. Failing to obtain Thaw's release there is a strong probability that the case will be thrown into the federal courts again and will eventually find its way to the supreme court of the United States. Mr. Stanchfield so asserted.

"The motion to have Mr. Thaw returned to New Hampshire and its denial are without precedent in law," he said. "In a case of this kind, where a man's sanity and constitutional rights are involved, it seems to me that the matter should be settled by the United States supreme court."

It was understood that an appeal probably would be entered from Justice Page's decision and that this appeal would be carried through the state courts to the highest tribunal and afterwards if necessary, taken into the federal courts and finally before the supreme court.

AN OVER BURDENED WIFE

If the work that women do and the pains they suffer could be measured in figures, what a terrible array they would present! Through girlhood, wifehood and motherhood woman toils on, often suffering with backache, pains in side, headaches, and nervousness which are tell-tale symptoms of organic derangements which Lydia E. Pinkham's Vegetable Compound—made from roots and herbs—can undoubtedly correct. Women who suffer should not give up hope until they have given it a trial.

CATARRH GERMS EASILY KILLED

Only Way To Cure This Is To Destroy Its Cause.

If you have catarrh and want to get rid of it you must kill the germs which cause catarrh. Stomach, dosing, ointments, sprays, creams, douches, etc., fail because they overlook this fact. They all help by giving temporary relief but they do not reach the germ life that has found lodgement in your head, nose, throat, and could not destroy it if they did.

The best known way of destroying the dangerous germs of Catarrh and consequently ending the disease itself, is to breathe into the air passages of your nose and throat the pleasant, penetrating air of Hyomei (pronounced High-o-me). Hyomei is made from purest oil of Eucalyptus combined with other powerful, healing, antiseptic and germicidal ingredients. You breathe it through a little pocket inhaler which T. J. Evans and other leading druggists in Newark and vicinity are furnishing with every complete treatment sold. Every time you inhale the sweet, fragrant air of Hyomei through this little device you are drawing into your swollen, inflamed, germ laden membranes a medicated air which will not only reduce all the swelling and inflammation and open your clogged nose and stopped-up air passages, but will absolutely and positively destroy every trace of Catarrh germ life it reaches. Druggists are so sure of the blessed, lasting, relief that Hyomei brings to catarrh sufferers that they sell it invariably on the positive guarantee that money paid will be refunded if successful results are not secured from its use. Get a Hyomei outfit from your druggist today and begin at once to drive this dangerous and disgusting disease from your system forever.

RHEUMATIC SUFFERERS GIVEN QUICK RELIEF

Pain leaves almost as if by magic when you begin using "5-Drops," the famous old remedy for Rheumatism, Lumbago, Gout, Sciatica, Neuralgia and kindred troubles. It goes right to the spot, stops the aches and pains and makes life worth living. Get a bottle of "5-Drops" today. A booklet with each bottle gives full directions for use. Don't delay. Demand "5-Drops." Don't accept anything else in place of it. Any druggist can supply you. If you live too far from a drug store send One Dollar to American Rheumatic Care Co., Newark, Ohio, and a bottle of "5-Drops" will be sent prepaid.

GERMAN CAPTAIN SEES LAUNCHING U. S. BATTLESHIP

COMMANDER OF PRINZ EITEL IN FULL UNIFORM MINGLES WITH NAVAL MEN

Told Woman Friend that this War was Necessary for Peace of World.

(ASSOCIATED PRESS TELEGRAM)

Newport News, Va., March 10.—The new dreadnaught Pennsylvania, was successfully launched here this morning shortly after 10 o'clock.

The largest engine of naval warfare in the world slid down the ways while prayer was uttered that she might be a messenger of peace rather than a weapon of destruction. Christened by Miss Elizabeth Kolb, of Germantown, Pa., as secretary Daniels gave a signal the monster hull slid into the James river and the swell tossed the German converted cruiser Prinz Eitel Friedrich more than a hundred yards away.

Commander Thierichens, commander of the sea raider sat in full uniform with the official party on the platform and mingled with American naval officers throughout the ceremony.

A gray haired woman approached the German commander as he stood under the towering bow of the Pennsylvania and grasped his hand. She was Mrs. M. F. Thomas, of Beacon, N. Y., a member of the Society of Friends.

"Commander," she said, "I belong to a society which believes that all persons should love others as much as themselves. Do you in Germany love us as much as you love yourselves?"

The captain smiled, but did not answer, as Mrs. Thomas continued. "Don't you believe that we will soon have peace? Isn't it time you men stop killing each other?"

"Madame," replied the German commander, "we all believe in peace, but this war had to be. It was a necessary war for the peace of the world. After this war there will be a long peace. But, at the end of the long peace, there will come, another war."

At that juncture Rear Admiral Beatty, commander of the Norfolk navy yard beckoned to the German commander and closed the interview.

At exactly 10 11 o'clock the German naval officer joined 10,000 Americans cheering the new American dreadnaught on her slide into the sea, after Episcopal Bishop Berry, of Pennsylvania, had read a prayer for the welfare of the president and people of the United States, the army and navy and the peace of the world.

On the launching slide beside the sponsor, who successfully broke a bottle of wine against the Pennsylvania's bow, were Governor Brumbaugh and staff, of Pennsylvania; Secretary Daniels and staff, a luncheon followed at Old Point Comfort.

PLANS RECEIVED FOR A NEW BLOCK ON NORTH SIDE

Messrs. Robbins Hunter, Harry D. Baker and W. C. Christian have received the plans and specifications for their proposed new building in North Park Place, from Architect Otto C. Darst of Columbus. Work on the building will begin about the middle of April, as it will take some time to get the material on the ground.

The new building will be a hand-

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1911 I was attacked by Rheumatism and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy, and doctor after doctor, but nothing helped. Finally, I received what I now call my home cure. I found a remedy which cured me completely, and it has never returned. I have given it to a number of my friends who were afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. I will send a copy simply mail your name and address and I will send it free to try. After you have used it and it has proved itself to be the best remedy for means of curing your Rheumatism, you may send the price of it one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why make any longer when positive relief is thus offered you free? Don't delay. Write today.

Mark H. Jackson, No. 204 Gurney Bldg., Syracuse, N. Y.

some addition to the business section of the city, and a vast improvement for North Park Place. It will be two stories in height, consisting of three rooms on the ground floor, each 17 1/2 feet wide, and the upper floors will be used for business purposes exclusively. The owners have planned a front which for architectural beauty will not be exceeded by any building in the city.

From the foundation up to the beginning of the second story the front will be built of terra cotta and a window in each room will be 12 feet in width and above each window will be three sections of prism glass. Between the windows on the first and second floors colored terra cotta trimmings will be laid and then the upper floor frontage will be a mass of heavy plate glass, the space between the windows being devoted to a handsome finish in colored terra cotta. The building will present an imposing appearance and will be a credit to its designers and owners.

EVERYONE ADMIRES THIS GOOD-LOOKING WOMAN.

Wherever you go you hear people comment upon a pretty woman and it is really beautiful hair more than perfect features that gives her the appearance of charm, youth and beauty.

Any woman can merit this praise, for beautiful hair is only a matter of care. Just as a plant needs attention and nourishment so must the hair have care and nutriment to make it grow long, thick, soft, fluffy and lustrous. The scalp must be free from dandruff, and the hair roots properly nourished, as nature intended.

Parisian Sage, which is delicately perfumed and easily applied is just what is needed. It tones up and invigorates the roots of the hair and furnishes the necessary elements to make it grow long, soft, abundant and full of life.

One application of this scientific tonic removes every trace of dandruff and cleanses the hair of dust and excess oil.

Why not start now to beautify your hair by using Parisian Sage, the great tonic treatment? It is inexpensive and easily applied at home. It can be had from T. J. Evans or any drug counter, and will surely work a miracle even if the hair is dandruff, oily, faded, streaked, dull and lifeless.

VERSION

OF WOMAN CHARGED WITH MANSLAUGHTER GIVEN ON WITNESS STAND

Defense Will Attempt to Prove that Man Accidentally Fell Down Flight of Stairs.

(ASSOCIATED PRESS TELEGRAM)

Bridgeport, Conn., March 10.—Mrs. Helen M. Angle, charged with manslaughter took the witness stand in her own behalf today and gave her version of how Waldo R. Ballou received fatal injuries outside her apartments in the Rippomaw building in Stamford.

Questions put to Mrs. Angle's counsel indicated that the defense is that Ballou, moving about in the dark, hallway, outside Mrs. Angle's rooms, pitched down the stairs.

Mrs. Angle looked somewhat worn as she took the stand, but outwardly she appeared calm. Her answers were made in a low voice.

To Jacob B. Kline, her counsel she described how she had been employed at various times as clerk. In January, 1914, she gave up this work as she was suffering from nervous trouble. She was married in 1898 to Frank Angle, but secured a divorce on grounds of desertion several years later. She met Ballou in 1901 about a year and a half after the death of his wife.

"We were very good friends," she said, and added that she had gone out frequently with Ballou. She also enumerated various gifts, which Ballou had given her.

"Did he appear to think very much of you?"

"Very much. He asked me several times to marry him. I told him I did not wish to, as he was very old. I also reminded him that he had grown children, and because of that I did not think it advisable."

Mrs. Angle described how she heard a noise in the hall some time after Ballou had left; how on investigation she stumbled over him lying at the foot of the stairs of her efforts to revive him and of taking him down stairs and out at the street entrance.

She added in a broken voice that everything paled into insignificance in the face of the fact that the man she loved was dead.

Mrs. Angle told of her movements on the evening of June 23 when Ballou lost his life. She spent some time with Mrs. Barrett who had just moved in under her. Later she washed two pairs of stockings and did some ironing with an electric flat iron for Mrs. Barrett.

Mrs. Angle said she felt lonesome, and called up "Jimmy."

"Who was Jimmy?"

"Mr. Ballou."

The witness continued: "I called up Mr. Ballou and he came over."

Mr. Ballou left, however, about 8 o'clock, the witness said, but returned later. He had a bottle of wine and after they had talked for some time Ballou proposed to have a drink of wine. Mrs. Angle said she did not care for wine and at her suggestion Ballou secured whiskey from the medicine closet and poured out a small drink for her and a larger one for himself. Later she told of finding Ballou's body at the bottom of the stairway.

Some people get tired doing nothing, while others are too busy to get tired.

HIGH MERITS OF TASTWEL COFFEE TOLD IN RHYME

W. W. HARPER CO. GIVES \$100 FOR BEST THIRTY COMPOSITION ON SUBJECT

Many Entries from District Points Some from Newark—The Three Winning Verses.

The W. W. Harper Company's TASTWEL coffee is well known to Advocate readers and many people in this community were interested in the recent prize competition conducted by the Harper company.

In the rhyme writing contest just concluded the first prize \$50 went to R. K. Harris of Cambridge, second prize \$30 to Miss Katherine Gerwick of Zanesville and third prize \$20 to Chas. Moorehead of Junction City. A number of Newark people submitted compositions.

More than 1250 verses were submitted. The entries came from New York, Los Angeles, Oklahoma, Detroit and other distant points while practically every town in southeastern Ohio was represented.

The best three rhymes were selected by a committee composed of H. A. Sharpe, Charles T. Atwell and Charles G. Griffiths. The verses were numbered and submitted to these gentlemen, who had no knowledge of the identity of the contestants. The first prize was awarded because of the excellence of the writer's expression. The second prize was given on the advertising value of the verses and the third because of the humorous expression.

In the fact that 1250 Tastwel coffee users submitted verses in this contest lies one of the proofs that Tastwel has rapidly made its way toward assured popularity. And the large number of contestants reporting from distant localities is evidence to the same effect.

There is no longer any doubt as to the success attained by Messrs. W. W. Harper Co. in the production of a new brand of coffee. Tastwel is a coffee of marked merits and is commanding trade far and near on the basis of these merits.

The First Prize.
In the mountains far from town
There lived an old hermit of great renown.
Whose life was sad and of no use,
Just as the life of every recluse.

He had no smiles to give away,
Just wandered around with nothing to say.
A sad old man—a life far spent,
He carried the sadness wherever he went.

One day his coffee supply got low,
And off to town he decided to go.
So he took his cane and his old dog
"Frey," and down the mountain he wended his way.

The grocer advised him to try a new brand,
The "Tastwel" coffee—the best in the land.
The grade was better than he had been,
But nevertheless he thought it worth trying.

And it wasn't long 'er a change took place,
A smile soon spread all over his face,
He was cured of his troubles and woes,
And now praises Tastwel wherever he goes.

The Second Prize.
It is for Harper of Tastwel fame,
For ability which gave it its name,
For the Roasting which adds to its savor,
For the People who are fond of its flavor.

For the Enterprise launching it out,
For the Reason we want it about,
For the Storekeeper, obliging and stout.

It is for Tastwel, the coffee sublime,
For Anna who makes it so fine,
For Sugar to make it quite sweet,
For the Tray to serve it so neat.

For Water to use in the making,
For the Egg to clear before taking,
For the Liquid, hot and thirst slaking.

It is for Coffee, prepared by our wife,
For Optimist—made so for life,
For Father to Tastwel devoted,
For Enthusiasm o'er all the earth.

The Third Prize.
Once there was a man so poorly,
By the name of "Reuben Guy."
He had doctored with good doctors,
And they said that he must die.

So one day the old man fainted:
On the table 't was a tin,
And his wife in her excitement
Threw the contents onto him.

She mistook it to be water,
For she meant to bring him through,
But it happened to be coffee,
Good old Tastwel Coffee, too.

All that kept the man from dying
Was the contents of that tin.
For he had his mouth wide open,
And the coffee all went in.

Some may think this too alluring,
Other say it is a lie;
But those doctors said that Tastwel
Saved the life of Reuben Guy.

EXPERT CLAIMS BRITISH GUNS ARE SUPERIOR

(ASSOCIATED PRESS TELEGRAM)

New York, March 10.—Sir Arthur Trevor Dawson, a British ordnance expert, who arrived here yesterday, expressed the opinion that the British naval and military guns are superior to the German.

"The Germans have their big guns," he said "but they are unwieldy things."

"I consider the 15-inch guns of the new war-hip, Queen Elizabeth, the finest in the world. They are proving that in the Dardanelles combat."

Sir Arthur will go to Washington and visit the Bethlehem steel works. He would not discuss the purpose of his visit to the United States.

TUBERCULOSIS! Beware of Imitations

The original and genuine Nature's Creation (which has accomplished such wonderful results in cases of tuberculosis) is not a patent medicine and is not obtainable in drug stores. Sold direct to consumers only by M. L. Haymann or authorized dispensers. Nature's Creation is an old and reliable medicine and enjoys such an enviable reputation that others are seeking to market imitation remedies. Nature's Creation may be imitated, but CAN NOT BE EQUALED, as its thousands of friends know.

Some Forms of Rheumatism Curable.
Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatic Headaches, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25c bottle now. Keep it handy in case of emergency.

BOWLING
The Browns won two out of three games from the Federals last night in the United League games on the Pastime alleys. The Browns' last game was a hummer, breaking the league record for high game. They also had the five total of 285 which is a second high total. Broke had high score and keys high total.

Browns		
Blinc	202	182
Keys	228	191

FROM the tip of her turban to the toes of her boots, Made-moiselle first of all insists upon distinctiveness.

That Madam or Mademoiselle may have just what her heart desires, we have arranged for the exclusive agency for Vogue Hats. Each model is exquisite, and correct to the tiniest detail.

We will have this spring
Our First Presentation
of
Vogue Hats

To those who delight in reviewing smart styles this assemblage will make a distinct appeal.

In addition to the Vogue Hats there will be shown a full line of the

EXCLUSIVE PHIPPS HATS
NEW YORK PATTERN HATS

and several hundred hats designed by Miss Huston in our workroom that are copies after the leading designers in the eastern market.

OUR OPENING TAKES PLACE WEDNESDAY, THURSDAY AND FRIDAY OF THIS WEEK

Ladies will take this as a personal invitation to attend the opening as no others have been sent out this season.

On account of the eight-hour a day working law for girls, our store will not be open any evening except Saturday of which our closing hour is nine o'clock.

BUY MADE IN U. S. A. PRODUCTS

That convention of Lieutenant governors will have to look out for the police might take them for the Unemployed and ask them to move on.

The stock brokers generously tip off the little woolly lamb that the war will soon be over, instead of buying the stocks and taking the profit themselves.

An international line makes some difference. Americans in Mexico are again urged to run for their lives, while in San Diego the Chicago Americans are running bases.

It is expected that many men will look like freaks as long as their wives permit them to run at large to the clothing store and buy their new spring hats without good advice.

After reading of the "value of good marksmanship as seen in the Dardanelles fighting, who says it is of no use for your boy to go out and throw rocks at windows in the woodshed?

The new shipping law, providing protection for American seamen, makes everyone feel a lot better, and it doesn't bother the ship owners in the foreign trade, as they can hoist some other flag and escape the law.

Owing to the heartless refusal of their creditors to advance any more money for railroad fares, many people will be denied the educational advantage of seeing the Panama exposition.

Some one asks what has become of the man who used to take five minutes and throw in a few shovels of earth to prevent a hole in the highway from getting deeper? Well, just now he is telephoning the highway department to send around a pair of horses and a gang of men to do the same job.

Buying Out of Town.

"If you buy out of town and we buy out of town, what becomes of our town?"

The above is an advertising club slogan. Think it over!

People who habitually buy goods away from town willingly admit that if everyone followed their example it would be a damage to the place and everyone would suffer.

A great many of our retail stores would have to go out of business and the rest could not keep such good stocks. Employees would be dismissed.

March 16 in American History.

1776—Washington's Continental troops continued work on the fortifications of Nook's Hill, Boston, in the face of heavy cannonading by British guns.

1865—Sherman's advance column defeated Hardee's Confederates at Averysboro, N. C.; loss about 600 on each side.

1880—Tidal wave disaster in the harbor of Apia, Samoa, in which the United States warships Trenton and Vandalia were sunk and the Nipis driven on shore; 32 American lives lost.

1912—The bulk of the wrecked battleship Maine was sunk off the coast of Cuba, with imposing ceremonies.

ASTRONOMICAL EVENTS.

Evening stars: Mars, Saturn. Morning stars: Jupiter, Mercury, Venus. Bright star Alpherat, low in the northwest about 8 p. m. Planet Mercury bright.

CLEANSE THE BLOOD AND AVOID DISEASE

When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases.

Put your blood in good condition. Hood's Sarsaparilla acts directly and powerfully on the blood—it purifies, enriches and revitalizes it and builds up the whole system.

Hood's Sarsaparilla has stood the test of forty years. Get it today. It is sure to help you.

not be wiped out unless by absolute proof.

It is well worth while to have a ruling on a question of that sort. Whether there is any way to bring the question before the United States courts we do not know. But we should consider their decision upon so questionable a point as about as likely to be important as that of any existing court.

TAKE A LOOK

IF YOU HAVE TIME

"Pete McLean has managed to conceal it so well that not more than half a dozen persons in the world know his name is 'Percy'."

Eph Wiley wants to amend the list of implements of torture by adding the banjo to it.

Buck Kilby, whose matrimonial adventure has been infelicitous, says the poorest token of esteem is that given by a father in bestowing the hand of his daughter in marriage.

Among the other annoyances of teaching are the parents who insist on visiting the school to see how their children are getting along.

If you wish to attract a good deal of attention pretend that your fool notions are in the interest of humanity.

If a man is successful half the people believe his wife "made" him, and the other half believe his employees did it.

People, taking them as they come and go, have plenty of religion. What they need is more common sense.

Those who have taken the pains to look up the Rev. Billy Sunday's record as a player have discovered that the Rev. Mr. Sunday hits them much harder from the pulpit than he did on the ball field.

Sound judgment is not often quoted in the newspapers, but a foolish, ridiculous statement is played up on front pages and spread broadcast.

Pointed Observations

Who hollered "Hard Times?" Home-steel steel works has added 4,000 men to the payroll.—Columbus Citizen.

Mount Lassen is now throwing mud, although it is not election time in California.—Pittsburg Gazette Times.

Did you ever notice that quite a portion of the milk of human kindness hasn't much cream on it?—Milwaukee Sentinel.

Things are not arranged right in this world. There are too many dumb waiters and not enough dumb barbers.—Greensburg Argus.

A thoroughly honest man is one who would make prompt report if his gas meter should stop registering.—Albany Journal.

No matter who wins, the Turk always manages to lose.—New York Tribune.

Paris skirts are shorter than ever, and the history manufacturers hope for increased business.—Philadelphia Record.

Many a bad case of pessimism has been cured by giving the patient a political office.—Toledo Blade.

Bluefield, W. Va., has a 9-year-old moonshiner. A study in still life.—Baltimore Sun.

Remember that solemn and lonely figure at Washington—he needs the help of your sympathy.—Baltimore Sun.

The remark of Mr. Kruttschnitt of the Southern Pacific Railway company, that "the Interstate Commerce Commission is one man choking another man to death" will excite much glee in the Far West, where for a good many years the Southern Pacific Railway company was the man who was doing the choking.—New York World.

The American merchant marine may not be big, but it has proved large enough to give a German captain the opportunity to make the biggest blunder yet in the treatment of neutrals.—Springfield Republican.

"It was kicking about taxes that made us Americans," says the Iowa Register, which is true enough, but may convey a wrong impression. The Continental patriots kicked about unjust taxes, not taxes wisely and honestly expended for free schools and charitable institutions.—Kansas City Star.

Once more we hear that a massacre of Christians in Constantinople is feared. That is at least a clue to where the world's Christians are.—Detroit Journal.

Guns of the allied fleet in the Dardanelles cannot demolish high prices of milk in Chicago as they did six-cent bread.—Chicago News.

The English Derby will be run the same—or almost the same—as usual this year, we understand. Hohenzollerns, if they feel that they must attend, are requested not to come in Zeppelins.—New York Evening Sun.

The elderly admirals were called "wherry onion-eyed stuffed puddings" by a President who imagined himself a fresh hot tamale and regarded Federal judges as being doughheads.—Louisville Courier-Journal.

The Dolphin, which has not been much mentioned by the press since William E. Chandler was secretary of the navy, has been ordered by Secretary Daniels to enforce neutrality in New York harbor. Will she bombard Tammany Hall?—Manchester Union.

At all events, the promised 12-inch-from-the-ground zowies will enable the eternal feminine to make a long stride forward.—Washington Post.

Many a man's will power becomes weak from lack of exercise.—Chicago Herald.

Spirit of the Press

Italy's Position.

Italy seems to be giving a pretty fair imitation of "September Morn" these days. To plunge or not to plunge—that is the question. If she should take up the cause of the allies and they should be defeated, what would be her punishment? Possibly Austria would demand Venetia back. But if she does nothing and the allies win, how can she claim any extension of territory? It is a knotty problem, and the solution seems no easier now than it did nearly eight months ago.—Philadelphia Record.

What We Pay in Taxes.

Charles Francis Adams gives to people of Lincoln, Mass., the result of some of his calculations, to the effect that they are contributing about \$285 a year per family for state, town and federal taxes, whereas in 1910 they were only contributing \$185 and in 1894 only \$95. The same relative increase would be found, no doubt, in most towns in all parts of the country. The increase is shown in the better conditions of communities as health, looks, security, comfort, convenience. It is also seen, probably, in increased wastefulness, though that isn't universal or inevitable, because one of the less obvious but slowly improving results of the higher cost of living is the greater efficiency of municipal administration.—Waterbury American.

Plea for Navy.

This is no time to talk little navy. From the beginning of history the nation with the capable navy has enjoyed an advantage over her sister nations, whether in offense or defense. Great Britain has obeyed the lesson implicitly, and as a tremendous expense for years. The burden has been heavy, but no Englishman today regrets his portion of it. America is in a different position. We are detached and apart from the scene of European emities. We need no standing army like Germany's nor a navy relatively as large as Britain's. But we do need an efficient army and a trained reserve. Above that, however, America needs a navy which will command the utmost respect of every nation in the world.—Cleveland Plain Dealer.

Sunday Funerals.

The request of the ministers of the city that the city council enact into a law a measure prohibiting Sunday funerals is not in any sense unreasonable and council should pass the measure requested. The Signal makes this statement advisedly, believing, to be brief, that Sunday funerals are unnecessary except in very rare cases. From a standpoint of style or fashion, the Sunday funeral is also frowned upon and many of the larger cities of the country have legislated against them. Columbus and Cleveland have placed an official ban upon them, as have many of the large eastern cities.—Zanesville Signal.

"Ignorance of the Law."

Take an innocent little statute. One lawyer (maybe a county counselor) says it is dead. Another lawyer says it is alive. The poor little statute does not know whether it is

Deep Stuff.
We are not always in the mood
To live as we should live,
But we should try to be as good
As the advice we give.

The Wise Fool.
"History is always repeating itself,"
observed the sage.
"Well, history hasn't anything on the
rest of us in that respect," commented
the fool.

The Bill Collector.
We owe bills to our sorrow,
For it is not his way
To put off till tomorrow
What can be done today.

Opportunity.
We hear your knocking with great glee,
We're glad when you have found us,
But we're the only knocker we
All care to have around us.

Paw Knows Everything.
Willie—Paw, what is meant by the them
expression "a rattling of dry bones?"
Paw—Shaking the dice for the drinks,
my son.

Maw—You go to bed, Willie, or you'll be
soon be as big a fool as your father.

Wu!
He smokes Old Sock cigars. The smell
My tortured windpipe chokes.
But some day he may go to Mexico.
Where he'll smell what he smokes.

Huh!
"Travel is a great educator," said
the old fogey.

"That's funny," replied the grouch.
"I never met a hobo who was so
blamed smart."

I Guess That's About Right.
What has become of the old fashioned
big Bible that had a page con-
taining the births, marriages and
deaths in the family and which used
to rest on the marble topped table in
the front parlor?—Luke McLuke in
Cincinnati Enquirer.

It is still there, Luke, but some of us
have been drifting away from it.—
Charles Leedy in Youngstown Tele-
gram.

Names Is Names.
Crow Shea lives at Mayaville, Ky.

Great Idea.
Dear Luke—The famous poem "In
Kentucky" is to be incorporated into
moving picture films and sent to the
San Francisco exposition as a part of

alive or dead, afoot or horseback.
And yet "no man can plead ignorance
of the law." A man may go to jail
if he does not know the law—unless
he is a lawyer. Oh, you Exact Sci-
ence!—Kansas City Star.

More for the Farmer.

Whoop! The foreigners have be-
gun to eat our corn. During the
seven months ending January, 1914,
we sent abroad 4,867,615 bushels of
corn, value \$3,636,697, and for a
similar period ending January, 1915,
15,773,629 bushels, valued at \$12-
308,174. The foreigner likes our
corn pretty nearly four times as well
as he used to.

We have the largest pile of corn
in the world, but much of it is going
to travel abroad this season. And
we are going to eat more of it that
stays at home than ever before.

It is the American farmer's turn
at bat and he's some fence-buster
when he gets an inning.—Columbus
Citizen.

Where Has He Gone?

What has become of the old-
fashioned standpat Republican orator
that used to make the rounds of the
country school-houses quoting the
price of wheat and corn under Re-
publican and Democratic Administra-
tions?—Kansas City Star.

Uncle Walt

BLUE GRASS.

The blue grass seed I sow, in sor-
row, for I know that other seed will
thrive, indeed, but this will never
grow. The cockleburrs will thrive, and
all weeds keep alive, but my blue
grass will die, alas, and me to an-
gust drive. It takes years to raise a
dozen spears; I sow and sow, in
grief and woe, and wet the seed with
tears. For long hours every day I
take the hose and spray the fertile
land where I had

planned a gorgeous lawn and gay. In
vain! the seed I sowed around my
cheap abode just rots and dies, con-
found its eyes, and hence this mourn-
ful ode. The gentle winds of spring
the tall bullthistles bring; the foxtails
thrive in blocks of five, the milk-
weeds dance and sing. The luscious
springtime rain brings herbage to the
plain; the burdock's there, so rich and
rare, the mullein thrives amain. But
grass seeds never sprout; they're al-
ways down and out; I've sown a ton,
and now I'm done—next year I'll sow
some krait.

Sentinel LAXATIVE TABLETS

MADE IN AMERICA
MORE THAN A MERE CATHARTIC

Eat what you like, whenever you please and at bedtime take a Sentinel or two which will guard you against the evils of up-set stomach, lazy liver, etc., and in the morning will gently move out the constipation poison, the bile and clogged-up waste without griping. Sentinels are purely vegetable, candy-coated. Better than calomel, for they leave no nasty after-effects. Get a box from your druggist to-night. 10 doses 10 cents. Mighty handy in case of emergency. Sentinels are only sold under the money-back-if-you-are-not-satisfied plan. Sentinels Remedies Co., Inc., Covington, Ky.

Ohio Legislative Notes

Columbus, March 10.—It must be disconcerting to the plans of the state administration to see how far the men employed two years ago when they leave the state work houses of reductions of salaries. First, Ohio lost W. C. Archer, secretary to the industrial commission who went to New York where his salary was raised to \$10,000. More recently W. J. Heffernan, who prepared the first and only budget for Ohio, was replaced by Edward Fullington who wanted any old job at any old price, and now Mr. Heffernan is efficiency manager of the National Cash Register works where it is said he will receive \$7,500, twenty-five per cent more than the state paid him. And now it is announced that James R. Marker, highway commissioner, who relinquished the state's \$4,000 offer, will also reject the job offered him by the Portage County Improvement association, and accept a position as chief engineer of the Ohio Brick Manufacturer's association at an increase of \$2,000 per year. Meanwhile the state will dribble along some way and the Ada graduates and Delaware constituents get on the pay roll.

If any old corporation doesn't get what it wants of the present administration, it will be the corporation's fault. The lobby is thriving as never before of the kind of the "good old days." The party orientals are thing—wine, women, dinner. Evidence is in the statements of the members themselves, the letters of news correspondents, and the admissions, of party organ editors who are wise in their generation. Proof is given of the need of a strong executive such as he who drove the lobby out of Columbus two years ago, and thereby turned the lobby leaders against himself. In 1912 the legislature carried through an effective program, of fifty-six promises made into fifty-six laws in six weeks and there was never a breath of suspicion against the legislature or administration. This year there is the grossest suspicion, the session goes into twelve weeks and not a single promise is carried out. The special interests are taking on a thrifty look just the same. Vox populi vox dei!

Willis still insists there is a treasury deficit by his failure to correct such a charge made in his first official message. His budget commissioner, Edward Fullington, confesses there is a balance of \$3,000,000. The Republican treasurer of state, Edward C. Archer, is advertising for bids from banks to take care of a surplus of \$11,000,000 plus. And Vic Donahue, the honest Democratic auditor, makes oath that just about that amount was left over by the Cox administration, including the special funds of about four millions. Who is telling the fib and was telling it all the time, and why?

The Plain Dealer, anti-refers to Governor Willis as "the chief saloon keeper of the state," applying to him the definition he created for himself.

cessor who enforced rigidly the provision of the license law. The P. D. should call Willis the "chiefest" because the home rule amendment which was elected with Willis by the unprecedented vote in Hamilton county provided him with 45 additional wet counties. So a query is in order: "Why doesn't the administration keep its promise to decentralize?"

Not a single measure inimical to the Cincinnati interests is to be given consideration or passage if it can be helped.

Clinton H. Cowen, who will succeed James R. Marker as highway commissioner, now holds a job in Hamilton county with Peter Durr & Co. Mr. Cowen attended school at Granville. C. A. Jones, new tax commission secretary, got another Delaware "grape." Incidentally he is an ex-attache of the state Republican machine, and as such helped James Boyle, now tax commissioner, to shoot holes into the Barnes law, which they will now administer to discredit.

And referring to the oriental entertainments for solons and the violation of commandments including the seventh, James W. Faulkner in the Enquirer suggests that the legislature needs Rev. Billy Sunday.

The Gallagher bill, half a law, will probably get postponement in the house. The lobby scandal is bringing letters from home and the coal men are running for cover. Slone will dodge also. The Green run-of-mine law will probably stand.

THE SICK

Miss Glenn Keim is ill at her home in Maple avenue, suffering with the grip.

Herbert Slack of Zanesville, who is convalescing from a critical illness, was in Newark Monday taking treatment at the Newark Sanatorium.

Miss Lizzie Burns is seriously ill at her home in South Sixth street. Miss Burns is suffering from asthma.

George Oatman of West Church street, was removed by the Bazler white ambulance to the City Hospital for treatment.

Mrs. E. A. Troby, who has been taking treatment at the City Hospital, was removed in Bazler's white ambulance to her home in East Main street.

On the Platform.

"I met Biffers' wife yesterday. Talks all the time, doesn't she?" "Yes," I never hear Biffers complain about it. He'd better not. She supports him by lecturing." Cleveland Plain Dealer.

A coat of paint will sometimes make an old house look as good as new, but never an old woman.

BLAZE RUINS RESTAURANT JUST OPENED

A loss of several hundred dollars resulted from a fire which broke out at midnight last night in Harry Taylor's restaurant, over the G. A. Baughman candy store. Before the blaze was extinguished the restaurant equipment was damaged to the extent of about \$200, a great hole was burned in the floor and considerable damage was done to the stock of candy, tobacco, etc., by water which poured through the ceiling into the Baughman store.

The restaurant was opened by Taylor only Monday morning. He had stored his furniture in the place some two weeks before, and fortunately at that time had the property insured.

The blaze was discovered by Ed Cappel of West Newark, who ran to fire headquarters and gave the alarm. At that time the fire was burning briskly. Prompt action enabled the firemen to get control quickly, and it was soon extinguished. Its origin is not known.

The building is owned jointly by Mrs. Metz and James Linehan. The loss on the building and the contents is covered by insurance.

Society

DIXON-BERRY.

On Monday evening at 7:45 o'clock at the home of Mr. and Mrs. James Finley in Sycamore street was solemnized the marriage of Miss Carrie A. Berry, daughter of Mr. and Mrs. James Berry of the Welsh Hills, and Mr. Alva H. Dixon, brother of Mrs. Finley. The ceremony was read by Rev. W. D. Ward, pastor of the Central Church of Christ, and they were attended by Miss Melissa Levington and Mr. Frank Lamp of Granville. Only a few friends were present.

The members of the Monday Talks conveyed at the home of Mrs. Roderic Jones in Granville street on the club day and the following program was given:

Venezuela—Mrs. F. S. Wright. Quirón Bolívar—Mrs. J. H. Franklin.

The Christian Endeavor of the Second Presbyterian church will give a social this evening at 7:30. A special program has been prepared and everyone is invited.

The members of the Monday Night Bridge club were entertained at the home of Miss Ruth Lindorf in Hudson avenue this week. The game concluded with the trophy awards being made to Mrs. James Cooper and Miss Katharine Sedgwick. The guests of the club were Misses Mabel Smucker and Alta Scott.

Miss Lucille Callahan will entertain the members of the Kensington club on Thursday night at her home in South Sixth street.

On Saturday evening Miss Marie Berry gave a party at her home in North Fourth street, honoring Miss Jennie Stahl of Mt. Vernon. The hours were spent in games and music.

At a late hour a dainty luncheon was served to the following: Misses Jennie Stahl, Edith Myer, Annetta Southard, Mabelle Johnson, Alice Headley, Georgia Harris, Camille Clouse, Odessa Hall, Mary Green, Ruth Wilkin, Florence Keller, Verna Keller, Eva Swern, Thelma Klinger, Gwendolyn Dixon, Marguerite Pfeil, and Mildred Bishop of Mt. Vernon. Messrs. Merle Martin, Paul Taylor, Alfred Ankley, Paul Munich, Isaac Emmons, Harry Wolfjen, Ralph Meyers, George Arrsburg and William Potter.

The Courts

Justice Scott's Court.

Fred Felkner, 28, was arrested on the affidavit of Mattie E. Moore, charged with assault and battery. The case will be heard Wednesday afternoon at 1 o'clock by Justice Scott.

W. H. Sturman pleaded guilty in Justice Scott's court to obtaining groceries under false pretenses. He was fined \$25 and costs in default of which he was sent to jail.

Court of Appeals.

In the court of appeals on Monday afternoon, the court heard the arguments of counsel in the case of Elsie I. Case vs. Frank Burrell et al. The court took the case under advisement. The suit involves the validity of a ditch assessment in Hartford and Bennington townships. In the case of Scott vs. Emeweiler et al. leave was given plaintiffs in error to file instant appeal. Alspach vs. Harris. Motion to dismiss appeal sustained, and entries submitted to the court.

The court will announce decisions in cases submitted during the past week on Thursday of this week.

Asks Separation.

Amanda Woodruff has filed a petition for divorce in common pleas court against John W. Woodruff. The petition alleges that they married July 3, 1909; that on March 6, 1915 defendant assaulted plaintiff spit in her face and called her indecent names; that he has assaulted

Dandruff a Danger Signal of Coming Baldness

By a Scalp Specialist.

Lots of folks with dry, dandruffy scalps, lifeless and thin hair, imagine that all their scalp needs is a little greasy tonic to oil up the tops of their heads in order to bring back a good, healthy growth of long, thick locks. What could be more foolish? It's the dandruff germ inside the hair roots—not the scalp—that needs attention.

Dandruff consists of scales from the scalp skin—waste matter from the germ-laden hair root. Don't get the idea that soap will wash it out for soap cannot enter the tiny follicles or globes in your hair roots, which are crying out for nourishment. But give the starved roots something they can readily absorb, to stimulate the weak cells into giving color, healthy luster and thick growth to the hair. The dandruff germs cannot live in healthy hair roots and after it is dead Nature will take its own course in growing hair.

It only takes a couple of applications of "wildroot" before the surface dandruff may be combed from the head in showers. But the most pleasing result is its cooling, refreshing effect as its fine virgin oils sink into the hair roots, making the scalp moist and out as purely clean as a babe's. A big bottle of "wildroot" at any good druggist's only costs a trifle for the splendid results it gives and the chemists who make it guarantee perfect satisfaction or money back.

ed her on other occasions, is cross, morose and unkind and that he has not provided the necessities of life for plaintiff although perfectly able to do so. The plaintiff asks that she may be divorced and granted reasonable alimony.

Suit For Money.

Minta Turner has filed a petition in common pleas court against E. K. Morrow, as administrator of the estate of Harvey Turner, in which she claims there is due her from said estate the sum of \$334 with interest at 6 per cent since Oct. 18, 1909.

Seeks Second Divorce.

Rachel McMillan has brought divorce proceedings in common pleas court against Frank C. McMillan. The petition alleges that they were married Oct. 11, 1912, and that subsequently in April, 1913, she procured a decree of divorce from the defendant. She alleges that on July 25, 1914, on defendant's promise to be good and treat her with all the respect, love and affection due a wife from a husband, she again married him; that in disregard of all his promises on or about Oct. 1, 1914, he assaulted her and called her vile, and indecent names and threatened to kill her; the petition also accuses him of adultery and states that he has been a habitual drunkard for more than two years past. Plaintiff asks for a divorce and all proper relief.

Your Boys and Girls

It is an old saying that a man is only as good as his feet. Babies should go barefooted until they begin to walk, and should walk barefooted as much as possible, of course, under suitable conditions. Sandals are always better than shoes, and shoes should always be loose, never buttoned. The toe-out walk is bad because it puts the weight on the heel and tends to produce bad postures and flat-foot, so the baby should be taught to walk straight-footed.

Deformities of the foot include all possible positions in which a foot can be placed. Some exist from birth; others are due to infantile paralysis, palsy, high heels, improper shoes, overweight, general weakness, and the inherited diseases that cause other acquired deformities already described. The most frequent error concerning them is flatfoot which women commonly attribute to rheumatism. Some foot deformities require surgery. Many yield to manipulation, or special apparatus.

It is the duty of every mother to give her child the benefit of a physician's advice and treatment, which in almost all cases of deformity, will make life happier for the child and in some measure remove the handicap, under which it must otherwise struggle as a cripple for life.

Every Day Etiquette

"Is it proper to have butter balls already on the bread and butter plate, or is it better to pass them on a butter dish?" asked Mrs. Newlywed. "Have the butter in neat forms or balls, already on the butter plates before the guests enter the dining room," answered her older friend.

Not Artistic Work.

Footlight—And was the performance artistic? Miss Sue Brette—No; the scenery and the leading lady were both badly painted.—Yonkers Statesman.

Too Much to Bear.

Friend—Why are you crying, Bobby? Bobby—Ma whipped me because my face was dirty and then washed it.—Judge.

By the street of By-and-by we arrive at the house of Never.—Cerrantes.

"I am having trouble with my pupils," sighed the school teacher. "Why don't you consult an oculist?"

Never try to make a guest feel at home until you have seen him in his own home.

Want a house? Read the Wants.

BENEFIT OF CHILDREN'S DEPARTMENT

A splendid opportunity will be given all who are interested in the work, progress and development of the children of the Newark schools and at the same time they can assist a worthy and laudable enterprise.

On Friday afternoon at 3:30 o'clock an entertainment will be given in the High school auditorium by the children of the various schools of the county, under the auspices of the Ladies of the Library Association, and will consist of readings, music, both vocal and instrumental, and a charming little play that will delight all who witness it. An admission of ten cents only will be charged and everyone is urged to purchase tickets whether they can attend or not, as the proceeds will be used for the benefit of the children's department of the public library. Many of the books in this department need rebinding and new books should be added.

The children will entertain you and all who patronize the affair will certainly be assisting a most worthy and deserving cause.

Personal

Mrs. C. E. Matthews and little daughter Marjorie and Norma are guests of Mr. and Mrs. J. H. McCahon in Hudson avenue.

Mrs. J. P. Clark of Pittsburg is a guest at the home of Mrs. A. Edwards in Clinton street.

Harry Hess of New York City is spending a few days in Newark and is registered at the Arcade Hotel.

Miss Irene Cosgrove of North Buena Vista street left today for Corning, O., where she will spend a week the guest of Miss Nellie Joyce.

Misses Edythe Hall of West Locust street and Mabel Jones of West Church street leave Wednesday morning for Fawcett, Pa., and Youngstown, where they will be the guests of Mrs. Adams (Louise Jones) and Mrs. Wayne Anderson (Mary Pollett). They will go to Cleveland to visit friends.

H. G. Phillips of Chicago, president of the American Bottle company, is registered at the Sherwood Hotel for a few days.

Mrs. Charles Rhodes and mother, Mrs. Ferdinand Crane have returned home after spending several weeks in Florida.

Mrs. J. P. Fitzgerald and daughter, Miss Martha of Ravenna, are visiting friends and relatives in the city.

James Cullinan of Eastern avenue, who has been ill, was able to be out on Monday for the first time.

Mrs. Leland Baxter of Sixth street, has returned home after visiting her mother in Columbus.

Mr. and Mrs. J. C. Moats of Bridgeview, Ia., are in the city visiting at the home of Mr. and Mrs. B. R. Shira of Dewey avenue and R. C. Zahners of Buena Vista street.

Mrs. H. E. Hoyman of Somerset, was in Newark a few hours Tuesday, enroute to Columbus.

Readers' View Point

Cost of Electricity.

Editor of The Advocate: My attention has been called to an article published by a subscriber in Saturday's issue of the Newark papers, asking for information about the rate given to the American Bottle company for the use of electricity for power and lighting to operate their factory.

In reply to this, I wish to say that that company signed a contract with The Ohio Light & Power company, and they are purchasing current on our regular published schedule, approved by the public utilities commission, and anyone wishing a copy of same may secure it upon request. This rate is a sliding scale rate and the rate they secure depends upon the quantity of current used.

H. L. MONTGOMERY, Manager.

Not Safe.

"I always call a spade a spade," said the emphatic man. "That's right," replied Broncho Bob. "A four-flusher once lost his life in a Crimmon Gulch by callin' a spade a club."—Washington Star.

NOW YOUR CORNS MUST GO

Dr. Hunt Discovers Method that Kills Corns by Penetration. ONLY 10c.

That old corn, that stubborn corn, that corn that won't go away, you can now get rid of it once and for all for Dr. Hunt of Sidney, Ohio, has discovered the scientific principle that makes corns go easily and painlessly.

Dr. Hunt's New Corn Cure does its work by penetration. That is Nature's own way. Goes to the very root of the corn. Corn lifts out root, body and branch in two days. No paring. No dangerous caustic ingredients. No liquids to dry out. No gummy, greasy salves. Dr. Hunt's New Corn Cure comes in a ready-to-apply plaster form. Time plaster exact size of corn and apply. More than two applications seldom necessary for the most stubborn case. Your corns are up at once. The soothing penetrating ingredient works without discomfort. In two days you have no corn. This is a doctor's discovery. The result of life-time study.

And a beautiful cost you only ten cents. Guaranteed, or money refunded. Sold by all druggists and shoe dealers. Or send ten cents in stamps to American Chemical Company, Sidney, Ohio.

How To Make the Quickest, Simplest Cough Remedy

Much Better than the Ready-Made One You Have.

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat colds, is really remarkable. You can actually feel it take hold. A day's use will usually overcome the ordinary cough—relieves even whooping, chills, spasms, croup, bronchitis, asthma and winter coughs. Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 5¢—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. In directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract rich in gualac, which is so healing to the membranes.

To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

PROBABLE SUICIDE ON A C. & O. TRAIN

Lexington, Ky., March 16.—An unidentified man, about 65 years old and well dressed, was found dead with his throat cut on a Chesapeake and Ohio train today, when the train arrived at Greenup, Ky. He had boarded the train somewhere near Huntington, W. Va., the conductor of the train said, and according to his ticket, was going to Cincinnati. The train officials stated that the man took his own life.

American Citizens Flock to Tampico In Spite of Warnings

Washington, March 16.—That many American citizens continue to arrive at Tampico, Mexico, despite the seriousness of the political situation there, and in the face of the fact that at least a thousand unemployed Americans have recently returned to the United States, is the burden of reports to the state department. They show that about 50 Americans, mostly the wives of business men in Tampico are there recently.

The American consulate at Tampico again warns United States citizens coming there to obtain work or for colonization purposes. The advice also said the flour mill formerly owned by the Madero family at Tampico was confiscated recently and there were no bread supplies there because there was no wheat to be had.

2 Drops of "GETS-IT," Out Comes the Corn!

It's the World's Greatest Wonder! Never Fails.

You'll make 500-500 eyes at your feet when you use "GETS-IT," and you'll find the place where those blantly corns used to be, just as smooth as your cheek. There's no corn or callus among the millions of feet in the world that "GETS-IT" will not remove—there's no escape. "GETS-IT" is the new way, the simple, common-sense, sure way. It goes away with grooves, pimples, sores, blisters, cotton rings, harnesses, knives, scissors, razors, files and the limping and the painful pigeon-toe walk. So many corns pestered people all year is put 2 drops of "GETS-IT" on the corn shrivels up and goes away. Nothing else in the world like "GETS-IT." Millions are using it. There's no pain, no trouble, no changing shoes because of corns.

"GETS-IT" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

COMIC OPERA TO BE EVENT OF SEASON

The last rehearsal for "The Chimes of Normandy," the comic opera to be sung by the Mendelssohn Choral Society at the Auditorium tomorrow evening, will be held this evening and it will be a dress rehearsal.

All participants have been notified to report promptly at 7 o'clock and the curtain will raise promptly at 8.

Planquette's well-known opera is in capable hands, and under the direction of Mr. E. P. Gruber the singers have made excellent progress.

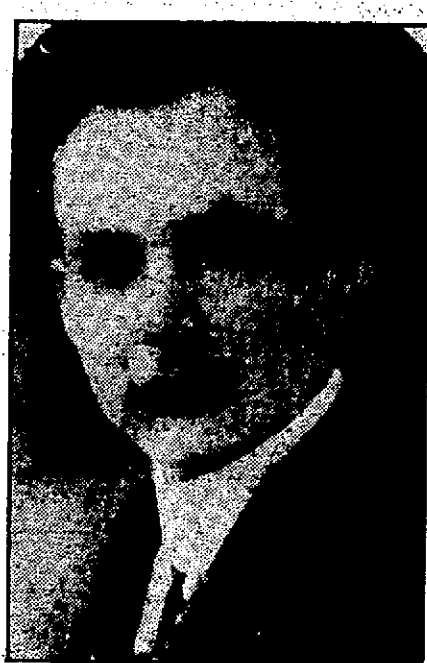

MISS BLANCHE TROST

As "Serpolette," the Good-for-Nothing.

Mr. Ralph "Bones" Davis has directed the stage work and he has developed some splendid actors. The rehearsals indicate that the opera will be one of the best amateur productions ever given in this city.

The soloists show exceptional ability and the chorus is one of the best ever heard in the city. In fact, every character of the play is in capable hands and all have worked hard to make it a big success, and there is no doubt but that their expectations will be realized.

The orchestra has made remarkable progress and the fifteen musicians composing it will demonstrate their ability as accompanists. The music of the play is tuneful and all who attend will be delighted beyond measure. The seat sale is good, but there are still a number of splendid reservations, and these can be secured by calling at the box office. If

M. J. BACIK

As "Jean Grenicheux, a Fisherman.

you miss this well-balanced, well-trained, and admirable company of singers you will always regret it.

The costumes for "The Chimes of Normandy" come direct from New York, and they are remarkable for their beauty, elegance and attractiveness. The opera will be one of the events of the season and will be superior to many of the traveling organizations which have visited this city in the past.

The curtain will rise promptly at 8:15 o'clock tomorrow night, and all those who expect to attend are requested to be in their seats before that hour to avoid causing confusion after the opera begins. The management will appreciate this courtesy. The price of admission is \$1 for the lower floor, with the last six rows reserved at 75 cents. The first two rows in the balcony are 75 cents, and the remainder, 50 cents. Gallery, 25 cents. Seats can be secured at the box office any time, and Treasurer Bailey will cheerfully select the best of reservations.

Associated Charities BULLETIN NO. 21

REPORT FOR MARCH 8-14.

	Free Out-Door Aid.	Relief.	Totals.
Monday	\$10.00	\$12.80	\$22.80
Tuesday	20.30	46.80	67.10
Wednesday	12.10	22.10	34.20
Thursday	13.35	22.50	35.85
Friday	19.75	43.20	62.95
Saturday	6.75	37.55	44.30

Totals \$85.05 \$207.75 \$292.80

Two items of this report require explanation. The disproportion in Out-Of-Door relief for Monday and Tuesday was due to the extreme cold of Sunday night. The streets were frozen so hard as to prevent outside work. A small gang of men unloaded a car of coal, and the remainder was thrown out for the day. This group was on for Friday of the previous week but was prevented working by rain. The loss of two days in succession was felt so keenly by

men with families in particular that they were allowed to work on Tuesday in addition to the group already listed for that date.

The second item is the small amount of free aid granted on Saturday. This was due in part to closing the office at noon to permit the Superintendent to attend a conference with the Associated Charities of Columbus. The chief reason, however, is found in the custom of Newark to give Saturday afternoon to shopping and other interests. As the pressure of emergency work is removed, therefore, the office will be closed regularly at one o'clock on Saturdays and the afternoon given to field work by the Superintendent.

With the approach of Spring, odd jobs are being offered and Out-door relief work will from this date be materially reduced. The readers of the Bulletin can assist greatly by doing their garden work and cleaning up early. We have men and women listed for almost every kind of work from spading gardens to painting houses. Let us do your work and help them.

The following quotation under the caption "Prevention" is an allegory in verse which presents the two methods of giving relief: the one consists in caring for the poor and the unfortunate without reference to the causes of dependency; the other seeks to remove the causes and help the needy to become independent. Newark has ever provided the Ambulance—a comfortable, roomy one; an increasing number of our citizens have combined to build the "Fence." They need help and invite you to lend a hand. Will you?

"Prevention" "Twas a dangerous cliff, as they freely confessed, Though to walk near its crest was so pleasant. But over its terrible edge there had slipped A duke and full many a peasant. So the people, thinking something would have to be done, But their projects did not at all tally. Some said, 'Put a fence around the edge of the cliff, and the valley.' Some, 'An ambulance down in the valley.' But the cry for the ambulance carried the day. For it spread through the neighboring city. A fence may be useful or not, it is true, But each heart was brimful of pity For those who slipped over the dangerous cliff. And drivers in highway and valley Gave pound or gave pence, not to put up a fence. But an ambulance down in the valley.

"For the cliff is all right if you are careful," the saying is, "And if folks even slip or are dropping. It isn't the slipping that hurts them so much. As the shock down below when they're stopping. Then an old sage remarked, 'It's a marvel to me That people give far more attention To repairing results than to stopping the cause. When they'd much better aid at prevention.'"

"Let us stop at its source all this mischief," cried he, "Come, neighbors and friends, let us rally. If the cliff we will fence we might at most disagree. With the ambulance down in the valley. 'Oh, he's a fanatic,' the others rejoined. 'Dispense with the ambulance? Never. He'd dispense with all charities too, if he could. But, no, we'll protect them forever. Aren't we picking up folks just as fast as they fall? And shall this man dictate to us? Shall we? Why should people of sense stop to put up a fence? While their ambulance works in the valley?'"

The Volunteers and Friendly Visitors class will meet in the council chamber, city hall, tomorrow, Wednesday, 1:30 p. m. All interested in the work are invited.

WM. E. HOPKINS.

MONTHLY REPORT PUBLIC LIBRARY FEB. 15-MAR. 15

Cash on hand, Feb. 15, 1915, \$424.12; received from fines and reserves \$16.28; total receipts \$20.80; expenditures \$19.06; balance on hand, Mar. 15, \$17.14.

Circulation: Adult fiction for the month, 2978; juvenile books for the month 1586; non-fiction for the month, 1633; total circulation, 5597; highest daily circulation, 315; lowest daily circulation 168; average daily circulation, 260; number of books for the month, 102; number of books mended, 530; money earned by pay books, \$35.50; 41 were gifts by friends of the library and 45 were purchased with pay book fund; 72 were rebound and were paid for by library association.

U. 4 vols.; Miss Buckingham, 10 vols.; Miss Anderson, 3 vols.; Mrs. Evelyn Williams 1 vol.; Muriel Grimm, 1 vol.; Miss Allen, 1 vol.; Mrs. E. P. McDonald, 4 vols.; Mrs. Anson, 1 vol.; 2 vols.; W. Outman, 3 vols.; a friend, 1 vol.; Mrs. Chas. W. Montgomery, 3 vols.; of bound magazines, Subscription to magazines, Mrs. Hannah Allen and Ohio Light & Power Co.; magazines and papers, Mrs. Prout, Mrs. Thomas, Miss Robbins, W. D. Gilbert, Harry Mathews, Neva E. Rees, Librarian.

Time Enough. It is now possible to check babies at department stores, but still impossible to check them at home when they howl at midnight.—Louisville Courier-Journal.

What Cures Eczema?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D. Prescription, can be relied upon. We would not make this statement to our friends and neighbors unless we were sure of it. And although there are many so-called Eczema remedies sold, we ourselves hesitatingly recommend D. D. D. Prescription. All druggists have D. D. D. etc. etc. etc. Draw water over this today, just to talk over the merits of this wonderful Prescription. Ask also about D. D. D. Soap.

FRANK D. HALL, DRUGGIST.

"Just like the old home apple butter!"

The old home apple butter taste! What memories it recalls to these two old folks! Memories of the vine-covered old homestead, with its moss-covered stone well, and its sweet-scented apple orchard, laden in fall with big, luscious, rosy-cheeked apples.

The old home apple butter! Rich and golden-brown, was anything ever so delectable, so wholly palate-pleasing? It was the ambrosia of the autumn.

The old home apple butter! How often have you just "hankered" for its rare goodness? How many times have modern apple butters disappointed you when you sought it? The minute you taste Lippincott Apple Butter you'll realize you have found the old home taste at last. And no wonder! Just consider how Lippincott Apple Butter is made—

We follow a famous recipe used on an old New England homestead for over fifty years. We use nothing but the

choicest and tarest of apples, the most fragrant of spices, and the purest of white granulated sugar.

Order a trial jar now—enjoy again the old home taste you've hankered for. 15c and 25c jars at all good grocers.

THE LIPPINCOTT COMPANY, Cincinnati, Ohio

You will find the old home taste and purity in all of the Lippincott Products. Ask your Grocer about our complete line.

BAD COLD? GET RELIEF AT ONCE WITHOUT QUININE

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges of nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

White Man With Black Liver
The liver is a blood purifier. It was thought at one time it was the seat of the passions. The trouble with most people is that their liver becomes black because of impurities in the blood due to bad physical states, causing Biliousness, Headache, Dizziness and Constipation. Dr. King's New Life Pills will clean up the liver, and give you new life. 25c at your Druggist.

POLICE AT SEA FOR A CLUE TO INDIANA MURDER

(Associated Press Telegram)
Terre Haute, Ind., March 16.—Efforts to get a statement from one of the survivors of the family of William G. Balding, three of whom including Mrs. Balding, who died last night, were murdered in their beds, and three others beaten into insensibility on Sunday night, will be made by the police and prosecuting attorney today. At the hospital Clifford Balding, aged 12, Irene Balding, 3, and Walter, 1, were still unconscious this morning.

The attempt was made last night to get a statement from Clifford when he showed signs of returning consciousness, but it proved unsuccessful.

The police held one man today whom they suspected might know something about the tragedy, but they were not confident of an immediate solution of the mystery.

MONUMENT MAY BE ERECTED TO AVIATOR BEACHEY

(Associated Press Telegram)
San Francisco, March 16.—If a plan, which has been approved by the city's board of supervisors is carried into effect, a monument will be erected in Golden Gate Park to the memory of Lincoln Beachey, the aviator, who was killed here Sunday.

The funeral will be held tomorrow, City and Panama exposition officials conferred today regarding a proposal to suspend activities at the fair grounds and to ask that business be held up for five minutes while the funeral ceremonies are in progress.

Beachey is said to have left a fortune of more than \$100,000.

ORDER RUSSIANS IN NORTHWEST TO JOIN THE COLORS

(Associated Press Telegram)
Seattle, Wash., March 16.—All Russian reservists in Washington, Oregon, Idaho, Wyoming, Montana and Alaska have been ordered home to join the colors in an order issued by Nicholas Bogoiavlensky, Russian consul general here. At the consulate today it was said that approximately 25,000 men in the Pacific northwest would be affected.

It is expected that a Russian steamer will be chartered to carry the reservists from that consular district to Vladivostok.

The reservists must report to their commands not later than April 13, under penalty of being declared deserters.

A RAW, SORE THROAT Eases Quickly When You Apply a Little MUSTEROLE

And MUSTEROLE won't blister like the old-fashioned mustard-plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out all soreness and pain.

MUSTEROLE is a clean, white ointment made with oil of mustard. There's nothing like it for quick relief for Sore Throat, Bronchitis, Tonsillitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds on the Chest (it often prevents pneumonia). Nothing like MUSTEROLE for croupy children.

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

MUSTEROLE

LIGHT COMPANY APPEALS CASE TO MAINTAIN RATES

(Associated Press Telegram)
Wheeling, W. Va., March 16.—After a recess of two weeks, the hearing of the appeal of the Manufacturers Light and Heat company to the United States circuit court of appeals from the decision of the West Virginia public service commission, reducing its rates, will be resumed today before J. W. Vandervort, the special master. The plaintiff charges among other things that the commission was coerced into its action by Governor H. D. Hatfield of West Virginia. A Leo Well, chief counsel for the manufacturing company last week obtained a writ of prohibition preventing Kanawha county from proceeding with judgments against him. The indictments charged conspiracy to attempt to bribe members of the public service commission.

REFUSAL

OF TURKISH GOVERNOR OF
SMYRNA TO SURRENDER
CITY TOLD IN REPORT

British Admiral Offered Generous Terms, and Then Continued the Bombardment.

(Associated Press Telegram)
Washington, March 16.—The part played by American diplomatic and consular representatives in the negotiations looking to the surrender of Smyrna in Asiatic Turkey, which failed, is told in dispatches just received by the state department from the American legation at Athens, Greece.

The messages dated Sunday, stated that the bombardment of Smyrna by the French fleet had continued fiercely from March 5 to March 9, when the American legation was advised by wireless that Admiral Pierce of the British fleet had a communication to deliver to the Ottoman authorities at Smyrna and asked that it be transmitted through the American consul general there.

The request was sent to the American embassy at Constantinople and forwarded to Consul General Horton, who went to Vourla, near Smyrna and boarded the British fleet ship Eurysalus. He received a statement addressed to the governor general saying that inasmuch as the late had been kind in his treatment of belligerents and foreigners generally, the British admiral entertained the highest esteem for him. It added that if the governor-general would order the dismantling of all the fortifications no further effort would be made to land and the place could continue under control of the Turkish authorities. A sum of money for relief of war sufferers was also promised by the British admiral and a truce was to go into effect the morning of March 11.

Consul General Horton reported that the Turkish governor general's answer was a flat refusal, whereupon the bombardment was continued on the eleventh.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that he will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Take Hall's Catarrh Cure for constipation.

"THE DESTINY OF MAN"

At the West End Church of Christ last evening, Evangelist Irwin spoke to a large number of auditors on the subject, "The Destiny of Man." A chart was used to make the subject plain. On this chart were fine circles representing all the conditions of persons spiritually in this world or in the hereafter. The first circle represented the state in which our first parents were in the Garden of Eden. "The tragedy of Eden," declared the speaker, is the tragedy of the human race. So soon as a child reaches the age of accountability, and deliberately chooses the wrong instead of the right he re-enacts the tragedy of Eden—falls from that state of innocence and sinlessness which he previously enjoyed and thereafter must have a Redeemer in order to salvation.

There are three classes only who can be saved without the mediation of Jesus. They are the idiots, infants, and heathen. There is only one way for a responsible human being to get from earth to heaven, and that is by the way of the cross and church of Jesus Christ. Culture, training, philosophy, reformation will not serve as substitutes.

Regeneration, not reformation is essential. "Ye must be born again," declared the Christ.

Two roads lead to the region of the lost—one from the world, the other from the church—the way of backsliders—while only one road leads to heaven. It is not "up or down, or some other way," but just "up or down."

A large attendance for Monday night was present and two persons placed their membership with the church. Tonight the sermon subject will be "The Conversion of a Murderer." A select quartet will sing, and there will be a special solo.

DILLON IS THE FAVORITE.

(Associated Press Telegram)
Milwaukee, Wis., March 16.—"Gunboat" Smith and Jack Dillon, heavyweight boxers, will meet at catchweights in a 10-round, no-decision bout here tonight. Dillon is a favorite among the betters.

COSTIVE BOWELS, HEADACHE, COLDS, TAKE CASARETS

Get a 10-cent box now.

Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Casaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Casaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing too.

Whole Family Dependent.
Mr. E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine-Tar Honey." May be someone in your family has a severe Cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar Honey is an ever ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Druggist 25c.

FATAL FIRE IN ROOMING HOUSE AT LOS ANGELES

(Associated Press Telegram)
Los Angeles, Calif., March 16.—Two women are dead, a third fatally burned and many others injured as a result of a fire which early today burned through the upper stories of a three-story frame apartment house here.

Mr. M. M. Richardson, 70 years of age, and another woman whose body had not been identified, were killed. Mrs. H. T. Avery probably will die.

The majority of the occupants awakened by the fire, barely had time to hurry to the windows and leap to the ground. Many of these suffered broken arms or legs.

Several firemen and police officers were cut and burned while searching rooms for occupants.

STRONG PROTEST TO BE MADE TO BRITAIN'S ORDER

COMMERCE OF UNITED STATES
DESTINED TO NEUTRAL
COUNTRIES DIPPED

Washington Officials Openly Express
Displeasure at Latest Admiralty
Ruling.

(Associated Press Telegram)
Washington, March 16.—Administration officials were giving careful study today to the provisions of Great Britain's order in council aimed at the stoppage of all commerce by sea to and from Germany which they regard as unprecedented and as having a far-reaching effect on American commerce, particularly on shipments of cotton and imports of dyes and dyestuffs from Germany. That officials are keenly disappointed, is evident and that vigorous protest will be lodged by the American government against the British action is virtually certain.

What perhaps displeased officials most, was the prohibition on American commerce consigned to neutral countries and suspected of enemy destination. It forms the principal basis upon which the American government will insist on the freedom of its commerce from undue interference.

The probable course of the United States will be to await an enforcement of the British order in specific cases, each one of which will be made the basis for strong protest.

Officials hope for an early improvement of the conditions for the commerce of neutral nations, was destroyed by receipt of the British order together with information that Great Britain had declined to accede to the American government's informal proposal for the withdrawal of Germany's submarine campaign, and England's ban on foodstuffs for German civilians.

BILIOUS?

If you have bad taste in mouth, foul breath, furred tongue, dull headache, drowsiness, disturbed sleep, mental depression, yellowish skin—then you are bilious.

TWO-THIRDS OF CHICAGO VOTERS WILL BE WOMEN

(Associated Press Telegram)
Chicago, March 16.—Two-thirds of the number of voters placing their names on the registration lists today for the majority election April 6, will be women, according to predictions of officials of the election board. It was expected that between 75,000 and 100,000 more names would be added to the lists today, the last opportunity for registration before the election. The total registration now is 117,191 men and 218,712 women.

FEDS SCHEDULE DRAFT.

(Associated Press Telegram)
Chicago, March 16.—Drafts of schedules for the coming season to be submitted for adoption at a meeting here tomorrow, were under consideration by club-owners of the Federal League today.

DEEP SNOW

CAUSES RUSSIAN TROOPS TO
MOVE BUT SLOWLY IN CAR-
PATHIAN MOUNTAINS

And in Indian File, But Official Report From Petrograd Is Sanguine.

(Associated Press Telegram)
Petrograd (via London), March 16.—The following official dispatch has been received from Osdswetz:

"The enemy has brought some of his batteries closer to the fortress because of their obvious ineffectiveness at the longer range. The artillery of the fortress effectively shelled a column of the enemy consisting of motors drawing artillery, provisions and ammunition."

Official reports from other points follow.

"Przasnysz: The Germans continue a violent artillery fire, but their infantry is unable to resist our attacks. We are holding the enemy on almost the entire front with particular success in the wooded sectors bordering on the river Orzyo.

"Bzura Region: The enemy is active at night, possibly reinforcing his artillery."

"The Carpathians: Conditions are extremely difficult for an offensive. Owing to the deep snow troops can be moved only slowly. The men use beaten paths moving in Indian file which involves heavy losses. Troops on both sides are using skis. In spite of the conditions which exist, the Germans continue their vain attempts to relieve Przemyśl, where our heavy batteries are active."

BOWLING RESULTS

AT PEORIA MEET
Peoria, Ill., March 16.—Teams from Cleveland, Lima, O., Grand Rapids and Piquette, Ind., competed today at the tournament of the American Bowling Congress. Twenty-eight five-men, thirty-three doubles, and sixty-eight single teams will compete.

The Maxines quintet of Detroit, still leads with 2807. S. F. Myers and W. Peters of Chicago, are ahead in the doubles with 1170, and J. Lellinger of Chicago, tops the singles with 671.

ARMED GUARDS WATCH

ROCKEFELLER TOMB
Tarrytown, N. Y., March 16.—Two armed guards kept watch today over the body of Mrs. John D. Rockefeller, sr., in the mausoleum of John D. Archbold, in the Sleepy Hollow cemetery here. It was stated that the guards would be kept on duty until arrangements for the permanent burial had been completed.

SICK SKINS MADE WELL BY RESINOL

No matter how long you have been tortured and disfigured by itching, burning, raw or scaly skin humors, just put a little of that soothing, antiseptic Resinol Ointment on the sores. The suffering usually stops right there! Healing begins that very minute, and in almost every case your skin gets well so quickly you feel aamed of the money you threw away on tedious, useless treatments.

Resinol Ointment is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for twenty years. No other treatment for the skin now before the public can show such a record of professional approval. Every druggist sells Resinol Ointment (25c and \$1.00), and Resinol Soap (25c). They do wonders for pimples, blackheads, dandruff and chafings, and age a comfort to skin-tortured babies.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP---25 CENT DANDERINE

If you care for heavy hair, that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you can not have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish,

loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine, if eventually—why not now?

the MAZDA tonight. 1t

When You Wash Your Hair Don't Use Soap

Most soaps and prepared sham-
poos contain too much alkali,
which is very injurious, as it
dries the scalp and makes the
hair brittle.
The best thing to use is just
plain mulled coconut oil, for
this is pure and entirely grease-
less. It's very cheap, and beats
soaps or anything else all to
pieces. You can get this at any
drug store, and a few ounces will
last the whole family for months.
Simply moisten the hair with
water and rub it in, about a tea-
spoonful is all that is required. It
makes an abundance of rich,
creamy lather, cleanses thorough-
ly, and rinses out easily. The
hair dries quickly and evenly, and
is soft, fresh looking, bright,
fluffy, wavy and easy to handle.
Besides, it loosens and takes out
every particle of dust, dirt and
dandruff.

"THE ROAD TO YESTERDAY," a

Birth Announcement.
Mr. and Mrs. Robert Lytle of
Tenth street announce the birth of
a daughter on Monday, March 15.

Father O'Boylan Speaks Tonight.
Father B. M. O'Boylan will speak
on "Slander and Detraction" this
evening at 7:30 o'clock in the Church
of The Blessed Sacrament.

Has Finger Crushed.
Otto Abbott, of Hebron had the
second finger of his right hand badly
crushed on Monday while working
with his automobile. Dr. H. P.
Martin dressed the injury.

Birth Announcement.
Mr. and Mrs. August Sissea are
the parents of an eight and a half
pound daughter which came to their
home in Leroy street Saturday
night.

Business Session.
The regular monthly business and
social session of the Luther League
of St. Paul's church will be had
at the home of Miss Swingle, 30
West North street this evening.

Francis Willard Chapter.
The Francis Willard chapter of the
W. C. T. U. will meet Wednesday
afternoon at 2:30 o'clock in the Neil
avenue M. E. church. All interested
are invited.

Building New Greenhouses.
The G. B. Upham company has
the grading contract and Mr. Dell
Willey the carpenter contract for the
new greenhouses that Warren S.
Welant & Son are building.

Has Bloodpoison.
Louis Trunell, a blacksmith, is
suffering with a severe attack of
bloodpoisoning which has affected his
left hand. The hand became in-
fected from a piece of rusty wire.
Dr. P. H. Martin is attending him.

Measuring Party.
Don't forget the Measuring Party
at the Y. W. C. A. tomorrow night,
March 17th. A good time is in store
for you. Men are invited. This is
your opportunity to come to the Y.
W. C. A. Don't miss it.

Demonstrating the Blair.
The Blair gas-electric direct
drive bus was demonstrated on the
Newark streets this afternoon to
several out of town investors. The
Dollings company which is financing
the factory has now placed the stock
in the hands of its representatives
over the state.

Opens New Cafe.
August Sissea opened a cafe in his
new building, corner of North street
and Case avenue Saturday evening.
The room is 45 by 90 feet and a
new bowling alley has been installed.
There are also five pool tables.
Mr. Sissea served fine pig roast to
his patrons at the opening and the
place was crowded until closing time.

Council Meeting.
Council met in regular session last
evening and after being called to
order by President C. B. Keller a
motion was made to adjourn so that
the members might attend the debate
on the electric light question at the
First M. E. church, the question be-
ing one in which the council was
vitaly interested. The motion pre-
vailed and adjournment was taken
until Wednesday evening.

Recital a Success.
A fine audience of music lovers,
greeted professor Jesse K. Murdock,
of Somerset last Saturday evening
at the Elizabeth church. Not only
the professor himself but all who as-
sisted him, seemed at their best.
Mrs. Murdock at the piano is an
artist. The encores that followed
Miss Bell Taylor with Mrs. Roe at
the piano and Mr. Belford Chadwick
with Miss Junia Sells at the organ,
certainly must have been very grati-
fying to them.

Fresh Fish Season.
The fishing season in Lake Erie
opened Monday and fresh caught
fish should be on the market im-
mediately. You can tell whether
fish are fresh or not by examining
the eyes. If they are dull and white
just tell the dealer they are frozen.
There were very few fresh fish ship-
ped out this winter as nearly all
that were caught through the ice
found a ready market in the fishing
ports at top notch prices.

Bruce Kinney Here.
Rev. Bruce Kinney who has been
visiting his son in Granville, went
to Delaware this afternoon. Mr.
Kinney whose home is in Topeka,
Kas., is general superintendent of
the midland division of the American
Baptist Home Mission Society em-
bracing ten states. Mr. Kinney at-
tended school at Granville and was a
member of the class of 1892 in Den-
ison University.

Bargains in the Wants tonight.

DEAD MEN

WERE PLACED ON TERRE
HAUTE REGISTRATION LISTS,
IS TESTIMONY.

One Man Had Suicided a Few Days
Before Election, Another
Dead for Years.

(ASSOCIATED PRESS TELEGRAM)
Indianapolis, Ind., March 16.—
Dead men were placed on the regis-
tration books in Terre Haute last
October, according to Ira Wellman,
Silas R. Brewer and Joseph G. Elder,
who testified in the Terre Haute elec-
tion fraud case today.

The three men said they had ver-
ified the poll as taken from the regis-
tration books and found many regis-
tered from vacant houses, impossi-
ble numbers, and addresses outside
of the precincts in which they were
working, in addition to several hun-
dred names of men who could not be
found at all.

Wellman verified the polls in three
precincts, he said. He testified he
found two dead men registered in
one precinct. One man had commit-
ted suicide a few days before regis-
tration, and the other had been dead
several years, he said. He added he
found one man registered from a
street which would have been in a
graveyard, filled with water. He was
unable to find about 300 men on the
registration books, he testified.

PARTY LINES

(Continued from Page 1.)
miners' interests went to Representa-
tive Deaton and presented what they
said is evidence of improper use of
money paid by agents opposed to a
bill the miners supported.

Compulsory interchange of service
between rival telephone companies is
provided in a bill prepared today for
introduction by Representative Ober-
lin of Stark. Enactment of the pro-
posed measure would eliminate virtu-
ally double telephone system in any
community, so that a patron of one
system could talk directly with a
patron of another system by means of
connection between the central ex-
changes of the companies.

The bill would allow establishment
of an extra service fee for such calls.
Representative Oberlin suggested
probably one cent a call might be a
proper charge for making connection
between exchanges in communities
where neither company is excessively
small. The fee would be determined
normally by agreement of the com-
peting telephone companies, but in
case they failed to reach an agreement,
the state public utilities commission
would be authorized to establish a
rate of charges.

CATHOLIC PRIEST

(Continued from Page 1.)
tax of \$500,000, looking up many
Catholic priests in Mexico City until
the tax was raised.
An archbishop's robe of purple is
the chief article of value. The robe
is of silk and apparently of great an-
tiquity. Wrought in diamonds and
emeralds, rubies and pearls on the
front of the robe, so that it covers
the wearer's breast, is the ancient
Spanish coat-of-arms, consisting of
double eagles, back-to-back, wings
raised, necks back and beaks open.
The entire design is done in gold, in
which the gems are mounted, and the
robe is very heavy.

Farmer and Wife
Suicided In Barn;
No Cause Assigned

(ASSOCIATED PRESS TELEGRAM)
Reading, Pa., March 16.—Edward
Seyfort, a farmer, and his wife, com-
mitted suicide this morning by hang-
ing themselves in their barn. The
tragedy was discovered today by
their two young sons who went to
the barn to feed the stock. Upon
entering the building they found
their parents hanging side by side.
The husband and wife retired last
night in the best of spirits. They
were about 45 years old. There is
no known motive for the double sui-
cide.

DIABETIC
GRANGRENE

When gangrene appears in Diabe-
tes, it is commonly looked upon as
the beginning of the end, but that
such cases have gotten results is a
matter of evidence. Here's another

Patient, Wm. H. McGowan, machi-
nist, S. P. R. R. shops, Sparks,
Nevada. In June, 1913, was in bed
with Diabetes with gangrene, one-
half of one toe having been eaten
off. Fulton's Diabetic Compound was
administered with an antiseptic
lotion to cleanse the wound.
On January 19th, 1914, patient re-
ported—"My foot has healed. Am
working every day and getting
around as well as ever. I don't think
I have any more Diabetes."
The ability of Fulton's Diabetes
Compound to oppose Hepatic degen-
eration and reduce sugar in many
cases of Diabetes in people over fifty
is not a matter of opinion but a
FACT IN PHYSICS and we will send
formula that will show the percent-
age of sugar from week to week. As
the sugar disappears improvement
commonly follows. Sugar formula
and literature mailed on request.
John J. Fulton Co., San Francisco.
F. D. Hall is local agent. Ask for
pamphlet.

James B. Bruce.
James Burton, seven months old
son of Mr. and Mrs. Sam Bruce of
near Homer, died at 10:00 o'clock
this morning, after undergoing an
operation. Funeral services will be
held at the home of Mr. and Mrs.
Royal Bruce, near Hanover on Thurs-
day.

Some of the spiders of Java have
webs so strong that a knife is re-
quired to cut them.

ANARCHY

IN MEXICO MAKES INTERVEN-
TION BY UNITED STATES
ALMOST INEVITABLE.

Spanish Premier is Credited With
Such an Opinion in Dispatch
to a French Paper.

(ASSOCIATED PRESS TELEGRAM)
Paris, March 16.—"Anarchy in
Mexico and the crimes committed
there make intervention by the
United States almost inevitable,"
is a statement credited to Premier
Dato, of Spain, in a dispatch to the
Petit Journal from its Madrid cor-
respondent. The premier is reported
to have said that the Spanish govern-
ment had decided not to maintain
diplomatic relations with Mexico until
the situation there again is
normal and will decline the invita-
tion of General Carranza to send a
representative to act as successor to
Minister Caro, who was expelled
from Mexico.

Put New Life And
New Force

Into Your Run Down Worn
Out Bodies

If you have lost confidence in
yourself and everything you try to
do seems too much for you, if your
hands are beginning to shake a little
or you have nervous dyspepsia, don't
sleep well, appetite poor, headaches,
stomach, liver or kidneys are going
back on you, don't give up: Your
trouble is nerves' nerves' nerves!
and WENDELL'S AMBITION PILLS
cannot be beat for cases like yours.
They seem to go straight to the
nerve centers stirring them up to
healthy normal action. In two or
three days you notice a decided im-
provement and in a week you will
feel like a different person, and soon
will be your old, vigorous self
again. T. J. Evans and dealers
everywhere and other leading drug-
gists sell them, and are authorized
to refund the purchase price if you
are dissatisfied with the first box
purchased. Sent by mail for fifty
cents a box, postage prepaid by The
Wendell Pharmaceutical Company, Inc.,
Syracuse, N. Y.

WILL ADDRESS
MEN'S CLUB OF
TRINITY CHURCH

The Men's Club of Trinity church
will hold a dinner and social meet-
ing on Wednesday evening of this
week in the Parish House.

Dinner will be served at 6:15 in
the dining room at which the men
will adjourn to the Assembly room.
Here a social smoker will be held.
The guest of the evening will be
Dr. Joseph Leighton, Ph. D., Pro-
fessor of Philosophy at Ohio State
University. Dr. Leighton will de-
liver an address on the formation
and Organization of the German
Government and the causes of the
war.

Dr. Leighton lived some years in
Germany and was in attendance at
three of its largest universities. His
information, therefore, is first hand.
With keen scholarly mind and his
trained powers of observation, he is
most capable of handling this in-
tensely interesting subject. He is a
live wire with a live subject.

War posters used by British govern-
ment for recruiting purposes will
be on exhibition.

For War Sufferers.
The Roumanian Beneficial Society,
Dacia Troini, met Sunday in Jackson
street and the members contributed
over \$300 for the aid of the wound-
ed and orphans of Roumanian
soldiers in the European war. After
patriotic addresses had been deliv-
ered a banquet was enjoyed.

Asthma Can Be Cured
By taking Bolls New Asthma
Remedy. This medicine is
pleasant to take. No irritating
smoke to inhale. No narcotic
drugs used, where there is dan-
ger of forming a drug habit.
Just a remedy that goes to
the seat of the trouble, builds
up the system, acts on the
mucus membrane of the bron-
chial tubes and lung cells, giv-
ing almost instant relief.
One large bottle of this rem-
edy will be sent with full di-
rections, post paid to any ad-
dress on receipt of price \$1.00.

Are You Preparing For Easter?

It's time. The middle of March with Easter only a few weeks away makes the clock and suit department the center of activity. Every woman knows it is not too much time. The last week before Easter is a poor time to look for the lines you want on Easter Sunday. Many sizes are gone, and it takes from two to three weeks to get a special order. So make your selection now, and by taking time it's a pleasure to buy now, because you have exactly what you want, you know you have time to come again.

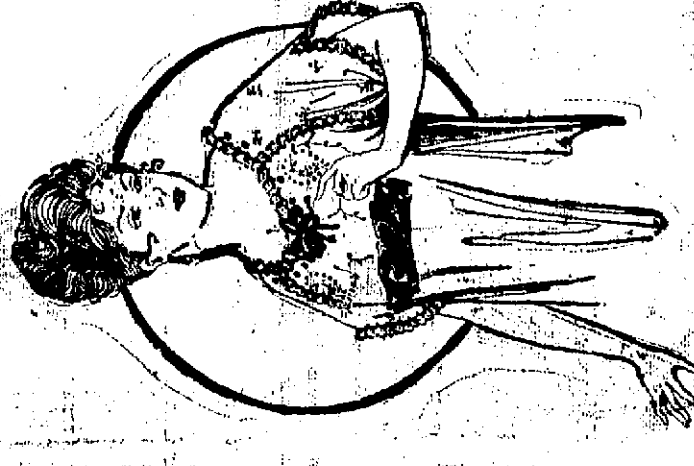

Suits Tend to Strictly Tailored Styles
Suits tend toward jaunty pockets, close fitting belts, button trimmings and fine tailoring. Skirts show yokes of different widths, pockets, buttons, or if you prefer, plain and flared at the bottom. Coverts, Gabardines, Serges and Crepe Weaves are shown in the new shades.

Some of The Coats
Separate coats of covert, Novelty Checks and Plaids, and white sport coats are among the many new things on display. Some made with wide belts and fancy pockets, while others are short waisted effects with full flare bottom.

The New Silk Dresses
Feature the new Dutch dresses, the suspender style, Empire effects and many other handsome gowns in all the approved styles.

Beautiful Separate Skirts In Black Taffeta and Silk Faille
Just received today. Some made with yokes others fancy shirring over the hips, while others have fancy flounces and button trimmings.

The Hand Embroidered Way
enables you to have beautiful pieces of lingerie and household articles at only a fraction of the cost of similar articles, when bought in the usual way. Our assortment of Royal Society package goods include corset covers, baby caps, bibs, dolly outfits, breakfast caps, aprons, serviette cases, dressing gowns, waists, children's hats, cushions, baby dresses, baby pillows, etc. These packages contain sufficient Royal Society fluffs to finish. Also full instructions for the embroidery work.

Have You Seen The New Baskets and Brass Goods
Two new lines just added to our fancy goods departments, that have been admired by many people. Baskets of every size and style. Baby baskets, market baskets, bamboo baskets of all kinds. Brass goods in candle sticks, flower baskets, vases, jardiniere, smoking outfits, tobacco jars, pedestals and umbrella jars. These make beautiful gifts and the price is moderate. You'll enjoy seeing them the next time you are in the store.

PHIL NETHERS IS FINED \$25

BY JUSTICE

Philip Nethers, aged 76, was arraigned before Justice F. S. Scott today, charged with making and selling intoxicants. He pleaded guilty to the charge and was fined \$100 and costs and \$75 of the fine was remitted. The old gentleman paid the fine and was released.

FOREIGN NATIONS LOOK TO AMERICA FOR PROTECTION

Washington, March 16.—Foreign government representatives in Washington who have looked to the United States for the safety of their countrymen in Mexico, were keenly interested today in the outcome of vigorous steps taken by the American government looking to the protection of foreign interests in the southern republic. Some saw in the latest American move a change in the administration's Mexican policy and believed the United States would insist on a more active role in the foreign interests by the Mexican factions.

The Princess Line Of Toilet Articles

Which is being introduced here consists of Cucumber Cream, High-grade Perfume, Mica Shampoo, Face Powder, Talcum Powder, Soap, Glycerine, and Butter-milk Lotion. Fair, Pineapple Cream, and Lard. Also 480 Pearl Beauty Face Cream. The total retail value of the goods is \$3.25.

The demonstrator will call at your home and will take your order for one of these advertised boxes complete—for \$1.00.

SECRETARY TO JUDGE DONAHUE KILLS HIMSELF

(Associated Press Telegram)
Columbus, March 16.—Despondent on account of ill health, Clarence E. Shockey, secretary to Judge Maurice Donahue of the Ohio supreme court, committed suicide this morning by firing a bullet into this right temple. He is survived by his widow and a daughter aged 13.

ITALY'S NAVY IS GATHERING CLOSE TO DARDANELLES

(Associated Press Telegram)
Geneva, via Paris, March 16.—A dispatch to the Tribune from its Rome correspondent says that a large part of the Italian Navy is being concentrated at Taranto at the southeastern extremity of the country and the point nearest the Dardanelles. The same paper prints dispatches from Venice which state that Emperor Francis Joseph on Saturday received Archduke Frederick, who is reported to be the general staff in the Carnations that the Archduke Eugene should be ordered to abandon the campaign against Serbia and also withdraw useless forces on the Rumanian frontier in order to reinforce the exhausted troops in the mountains. The archduke is reported to have cited as an example of the conditions in the Carpathian troops from Dukla and Lupkow districts, numbering 20,000 who have been fighting incessantly for six weeks, sleeping with their rifles in their hands.

Granville

(Special to The Advocate)
Granville, March 16.—At the meeting of the Travelers' club yesterday afternoon with the president, secretary and treasurer all in their accustomed places, another remarkable program was offered for the pleasure and profit of the tourists. Great entertainment was shown by Mrs. E. S. Brown, in her presentation of "The Events" and the two papers which followed were, manifestly, the results of careful, painstaking, judicious selection. The first paper was on "Munich in 1914" and was read by Mrs. E. J. Dorsey, whose summing up was that "competent observers who were at first skeptical, now say that what has been done in Hawaii, justifies the conviction that Americans show an ability to develop Colonial Possessions as no other people yet have done."

"The Sugar Question" was a large order, involving not only Hawaii and the Philippines, but also most of the world. In statistics of production and consumption. But in setting forth conditions, Mrs. William E. Forbes proved herself more than equal to the task. Her paper was read by the striking statistics that it is impossible to produce more than one or two States and pointed out that the United States alone consumes one-fifth of the sugar output of the entire world; that while the per capita consumption a generation back was forty-three pounds annually, it is now about 85 pounds per capita, with indication that during the next decade it will pass the one hundred pound per capita mark. A delightful feature of the afternoon was the staging of the Hawaiian national hymn by Mrs. Jacob Rohrer. For next Monday's meeting Mrs. Lucy Van Kirk is scheduled for a "Parliamentary Drill."

Instead of the Monday evening Y. W. C. A. prayer meeting in Recital Hall last evening, the Young Women's Christian Association of Denison University presented an effective program entitled "The Ministering of the Spirit," directed by Helen Vanburn. Louise N. Parker, says, "I believe that God is bestowing His blessing on the Young Women's Christian Association of Denison University. About eighty college girls were represented and the hopes of the future. An American warship, however, has arrived there ready to give aid to foreigners in case they are threatened. Before the arrival of the American ship had appealed to the British consul at Manzanillo. The British man-of-war, but with the arrival of the American ship it was not believed the dispatch of British ships would be necessary. Foreigners at Manzanillo are reported apprehensive because the Carranza authorities have confiscated property and because the food supply is running short. The British consul described conditions as 'unbearable.' Even a burglar-alarm won't keep the wolf from the door."
